GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Civil Works.

READ—the following paper :—

From A. A. G. MALET, Esq., Officiating Superintending Engineer, II Circle,
to the Chief Engineer for Irrigation, dated 27th April 1893, No. 273 K.S.

I have the honour to forward an estimate, amounting to Rs. 200, for surveying and levelling Pedalanka village for favour of early sanction. The Executive Engineer, Gudiváda, submitted an estimate for the work in November last, but no action could be taken on it as the necessity or otherwise of the work depended on the orders which might be passed on the report of the result of the attempt to irrigate a small area of land in Pedalanka by pumping up water from the Upputeru.

2. In his No. II/45 K.S., dated 27th March 1893, the Chief Engineer for Irrigation sanctioned the continuation of this experimental irrigation and it is now advisable that the lunka should be surveyed and certain lines of levels taken.

3. In anticipation of your sanction, I have authorized the Executive Engineer, Gudiváda division, to arrange for engaging the necessary establishment and proceeding with the work.

Forwarded to the Joint Secretary to Government, Public Works Department, General, Roads and Buildings Branch, with a recommendation that the estimate of Rs. 200 for surveying and levelling Pedalanka village may be sanctioned.
