No. 2255

EXECUTIVE ENGINEER'S OFFICE,
GODAVARI EASTERN DIVISION.
Dowlaishweram 16th June 1893

2773

From C. J. Usher Esquire,
The Executive Engineer,
Godavari Eastern Division.

To

The Superintending Engineer
First Circle.

Sir,

Enclosures.

I have the honor to forward herewith completion certificate for repairs to the Sea customs godowns Cocanada with remarks thereon by the Superintendent of Sea customs for your orders

The estimate for Rs 1750 was sanctioned in Register No 61 of 1891-92 and the work was put in hand and completed at a cost of Rs 1671 in the month of August 1892. Reference to the estimate (enclosed) will show that by far the greater part of the estimate amount was for Portland cement and gravel work and the only other item exceeding Rs 30 was for stone ware pipes.

I do not think that the Superintendent is justified in his remarks which would lead

lead one to suppose that repairing the roofs of the godowns was an important item, whereas only Rs 25 was allowed and expended, and the roofs were severely damaged afterwards by the cyclone of October 1892. I have written to the Superintendent pointing this out, and directing his attention to para 63 chapter IX of Government of India Code but he declines to alter his remark on the ground that Rs 25 have been allowed in the estimate for repairing the iron roofs of godowns.

The sub Division officer reports that the pipe drain is sufficient for what was intended.

As the Superintendents' remarks appear to be unreasonable, I think the matter should be referred to his Superior officer.

I have &c &c

Enclosures. 5
1 Completion certificate
1 Detailed Estimate
1 abstract Estimate
1 Report
1 Copy of letter
No 225-I
16-6-93

SIR,

I have the honor to submit herewith completion certificate for repairs to the Sea Customs' godowns Cocanada with remarks thereon by the Superintendent of Sea Customs and beg to bring the following facts to your notice for favor of any action you may consider necessary.

2 As pointed out by the Executive Engineer in his letter No: 225 I dated 16th June 1893 (copy of which is herewith enclosed) the main items of the accompanying estimate are for plastering the walls with portland cement and for gravelling the court yard. Rs 25 only were allowed for petty repairs to the roof

which was considered sufficient at that time. Since the expenditure of Rs 25 on the roof, a small cyclone occurred and did much damage to the roof causing it to leak, and for which another estimate has been prepared for putting the roof into thorough order. It appears that the pipe drain is sufficient for what was intended.

3. Under the above circumstances I consider the remarks on the completion report by the Superintendent of Sea Customs as irrelevant. I have addressed the Collector Godavari on the subject, stating that the mere signing of the completion report does not involve any responsibility on the part of the Superintendent as to whether "the material as per estimate was fully utilized" and requested him to ask the Superintendent to alter the remarks.

4. The Collector returned the completion Report with the remark that "para 1 ib was considered irrelevant under the rules of the Public Works Code being scored out by the Superintendent." 273

5. The Executive Engineer Eastern Division still considers that the Superintendents' remarks about repairs to the godown roof, and stone ware drainage pipes to be unnecessary, and misleading, and that he should be required to withdraw them, and I agree with the Executive Engineer.

I have the honor to be

ENCLOSURES 5

SUBJECT.

Sea Custom Godowns at Cocanada — Submitting a Compilation Certificate for Repairs to the — and stating that the Superintendent shall be required to withdraw his remarks —

For orders.

12/24.10
W

Steam admitted that the roof is still leaking. Thus being so I don't see what there is to object to the immediate completion of the work as noted.

Mr Gobat

No. 2778 Way 1st November 1893.

Recorded.

2. It is observed that a fresh estimate has been sanctioned, which provides for putting the roof into thorough order.
