No. 716 T.C.

Submitted to the Chief Engineer, Public Works Department, for sanction of Government.

TRICHINOPOLY,
23rd August 1893.

(Signed) W. L. C. BADDELEY, Major, R.E.,
Superintending Engineer, VI Circle.

From Major W. L. C. BADDELEY, R.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 11th October 1893, No. 980 T.C.

With reference to your memo. No. 3058 C. of the 9th September 1893 regarding watchmen required to look after division stores, &c., I have the honour to state that the stores of the Madura and No. II Periyár divisions are in two of the

rooms in the palace at Madura, and these rooms do not appear to be sufficiently secure, while the store of the Trichinopoly division is kept in one of the out-houses in the compound of the Division office.

2. The lascars attached to each Division and Sub-division office always accompany their officers on tour of inspection, as their services are necessarily required in assisting officers in taking levels, measuring works, &c. The messengers are not only required in offices, but they are constantly required to take the tapal to and from the camps of officers. It does not therefore appear possible to spare, without much inconvenience, any one of the lascars or messengers to look after the stores.

3. The Public Works bungalows at Dindigul and Uttamapálaiyam are now used as inspection bungalows. Watchmen for these are therefore necessary.

4. As regards the sub-divisional store and office at Sérmádévi, the explanation given in paragraph 2 above is equally applicable. The watchman here is also employed to water plants in the compound and sweep and keep clean the office.

5. In conclusion, I beg to submit for your decision the question whether lascars attached to executive officers are intended to be told off to look after stores and to sweep and keep clean the offices, as, if so, these officers will suffer much inconvenience from want of sufficient assistance in their field work.

ORDER—dated 3rd November 1893, No. 2817 W., Public Works.

The entertainment of the watchmen detailed in the statement submitted by the Superintending Engineer, VI Circle, with his letter No. 716 T.C., dated 23rd August 1893, is approved with the following exceptions:—

(1) As the stores of the Madura and No. II Periyár divisions are reported to be kept in two of the rooms of the Madura palace, one watchman may be employed for both, his pay being divided between the two divisions.

(2) The watchman proposed for the stores of the Trichinopoly division is disallowed. The stores which are kept in one of the out-houses in the compound of the Division office should be looked after by the lascar watching the Division office, and if none is employed to watch the latter, one of the divisional lascars should be told off to guard the stores.

(3) A special watchman is considered unnecessary for the Sub-divisional office at Sérmádévi.

2. As regards the question raised in the concluding paragraph of the Superintending Engineer's letter, His Excellency the Governor in Council is of opinion that one of the lascars attached to Divisional and Sub-divisional offices should be entrusted with the duty of watching the office as well as the stores when they are kept in the office compound, but that he should not be required to sweep or clean the building.
