13TH OCTOBER 1893, No. 2607 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—again the following paper:—

G.O., dated 26th September 1893, No. 2471 W., Public Works.

Read—the following paper:—

From L. L. WICKHAM, Esq., General Superintendent, Public Works Stores,
to the Chief Engineer, Public Works Department, dated Madras, 24th July
1893, No. 122 S.

I have the honour to submit herewith a special indent in triplicate for copper sheeting required for lock gates on the Buckingham Canal, together with the letter of the Executive Engineer which explains the circumstances under which it is required.

2. In the event of some of the locks not being made, the copper sheets would be required for repairs to the existing gates. I have had urgent indents also from Bezwada for the same material. It is not likely therefore to be a surplus.

ENCLOSURE.

From A. S. RUSSELL, Esq., Executive Engineer, Buckingham Canal Division, to the General Superintendent, Public Works Stores, dated Palár, 3rd July 1893, No. 1002.

I have the honour to inquire whether you keep in stock copper or white metal sheets for sheathing lock gates in salt water. If not, I would request that you forthwith obtain copper sheets sufficient to sheathe two pairs of gates for ten new locks shortly to be built on this canal. The quantity required can be calculated from the experience you have already had of coppering flood gates on this canal,—a lock, with its two pairs of gates, requiring of course just double what a flood gate does.

2. Since the copper will only be required by this division as each lock is approaching completion and since its cost will then have to be charged off to the sanctioned estimate as funds are provided by Government, the proper course would seem to be for you to now obtain the copper sheets and keep them in stock until required by this division.

3. In the case of the existing flood gates that were recently, and are still being, coppered, a special estimate was sanctioned by Government and a general indent made on you for the quantity of copper required, but this course cannot be followed for the new locks now or shortly to be under construction as explained above in paragraph 2.

4. An early disposal of this matter will oblige.

Order—dated 26th September 1893, No. 2471 W., Public Works.

The indent will be returned to the Superintending Engineer for amendment. The supply indented for should be reduced by one half.

13TH OCTOBER 1893, No. 2607 W., PUBLIC WORKS.

2. The amended indent should be submitted through the Examiner, Public Works Accounts, who is authorised to certify that funds to meet the cost of the articles will be provided during the current official year.

(True Extract.)

(Signed) F. W. ASHPITEL,
Under Secy. to Govt., P.W.D.

Read—also the following papers:—

No. 263 C.

Forwarded to the Examiner, Public Works Accounts, Madras, with the indent amended as directed in the above Government Order.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper :—

From L. L. WICKHAM, Esq., General Superintendent, Public Works Stores, to the Superintending Engineer, V Circle, dated 8th February 1894, No. 103 S.

With reference to paragraph 3 of G.O., No. 3116 W., dated 2nd December, forwarded with your No. 593 G., dated 22nd December 1893, I have the honour to state that there are 30 cash chests under Provincial and 800 rammers manufactured by Public Works Workshops for famine reserve subsequent to submission of my letter No. 75 S., dated 15th December 1892, and propose to give credit of these towards the 98 cash chests and 3,014 rammers which are deficient to the prescribed reserve and to manufacture the remaining 68 cash chests and 2,214 rammers in the Public Works Workshops.

2. I therefore now submit the enclosed estimate for the same for sanction.
3. The work will be put to hand at once.

No. 60 W.

Submitted to the Chief Engineer, Public Works Department, with the estimate for sanction.

16th February 1894.

(Signed) J. C. LARMINIE,
Superintending Engineer, V Circle.

ORDER—dated 26th February 1894, No. 518 W., Public Works.

The estimate, amounting to Rs. 3,302, for making up 68 wooden cash chests and 2,214 cast iron rammers required to attain the reserve limit fixed in G.O., No. 3116 W., dated 2nd December 1893, is sanctioned.

2. This sanction has been registered as Provincial No. 142 W. of 1893-94 and classified as Tools and Plant.

(True Extract.)

(Signed) J. PENNYCUICK, Colonel, R.E.,
Secretary to Govt., P.W.D.

To the Superintending Engineer, V Circle, with one enclosure.
