From Colonel A. T. FRASER, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 20th October 1893, No. 1880.

With reference to G.O., No. 1328 W., dated 17th May 1893, calling for a statement to support the charges for watchmen over buildings and stores for the scrutiny and sanction of Government, I have the honour to forward this and request sanction.

It would not be economy to leave all these tools in the sole custody of two messengers. The buildings are fairly constructed; still they are not burglar proof, and unless there are night watchmen the buildings could easily be entered without any discovery till the next morning. Besides machinery has constantly to be kept clean. There is always work for the men all day, and at night they take turns to watch, two at a time. This staff will be reduced and shortly to three men by making the temporary canal staff assist in watching.
