not been transferred on promotion
but simply a change from tempora-
ry to permanent Establishment
which I should admit indirectly
indicates a remote promotion in the
future; but as it is I consider this
change an actual realization of
the hopes that I was indulging
in when I underwent peculiar
difficulties that attended me in
the discharge of my duties in the
temporary Establishment and this
will be seen from the sketch
of my services herewith attached.
Even if it should be considered that
I was transferred on promotion
and in my own interest (as every
promotion is identical with the
interest of the promoted) and claims
to transit pay I have none being
transferred from a temporary to
permanent Establishment I most
humbly beg to bring my long
and

7886
and hard-earned service in the
temporary Establishment to your
kind and benevolent considera-
tion and quote a precedent in
which pay and travelling allowance
were passed in your No. 703W dated
3rd March 1892 to a draftsman
whose case is almost similar to
mine on the considerations that
though he was on the temporary
Establishment was not entertained
for a particular work; and I
consider it my misfortune that
the same authority should now
view my case in a way un-
favorable to me although I was
attached to Tank Restoration
Scheme before I was permanently
appointed as the other man was.
Further I beg to submit that a reference
if necessary may be made to the Chief
Engineer for Irrigation J. R. S. as
to

work during the 11 months he has
been here as Head Draftsman when
we started work about 1st March
1891. There was not a single estimate
in hand. Those received from the
District and District Boards had to
be returned as worthless in some
cases. The latter had not even
been selected. Now we have:-

+ + + +
+ + + +
while construction measurements
have provided the necessary estimates
of work and attention to his legitimate
duty of Draftsman and Estimator
he has done most valuable work in
checking the master rolls &
measurements. It is not too much
to say that he has done an average
of about 10 hours without
a single break for Sunday, holidays
or other cause. I hope you
will see your way to asking Chief
Engineer to give this man
as

as a substantial reward either a
post on the permanent establishment
or a temporary post with increase of
pay.

I have the pleasure
Signed C. J. Knight Watson
Executive Engineer
H. R. J. Wicks.
