Civil Works.

READ—the following papers :—

G.O., dated 1st August 1891, No. 1526, Judicial.

Read—the following papers :—

From the Acting Inspector-General of Police, dated 14th March 1891, No. 1560.

ABSTRACT.—Submitting, for sanction, Public Works Department plans and estimates, amounting to Rs. 2,540, for the construction of a second-class station-house at Tiruchanur in the North Arcot district.

From the same officer, dated 27th June 1891, No. 276.

Order—dated 1st August 1891, No. 1526, Judicial.

The estimate, amounting to Rs. 2,170, for the building is approved and the plans and estimates will be transferred to the Public Works Department.

2. The cost and area of the proposed site are both excessive. It appears that there has been a final award as regards 17 cents under section 14 of the Land Acquisition Act and therefore the sum (Rs. 600) awarded must be paid; but the Government cannot sanction the proposal to acquire an additional 10 cents at a cost of Rs. 370.

It is observed that the building measures 35' by 24' and it would therefore seem that the acquisition of a strip of land, $201' \times 37\frac{1}{2}'$, was quite unnecessary; the reason for acquiring so much should be reported. Considering the size of the building, a site, measuring $37\frac{1}{2}'$ feet either way, ought to be sufficient and the Government considers that the excess, amounting to $37\frac{1}{2}' \times 162\frac{1}{2}'$, should be resold.

(True Extract.)

(Signed) J. F. PRICE,
Chief Secretary.

Endorsement thereon in the Public Works Department, dated 14th Aug. 1891, No. 3713 C.

From Major C. C. RAWSON, R.E., Executive Engineer, North Arcot division, to the Superintending Engineer, IV Circle, dated 27th August 1891, No. 384 S.E.

With reference to your No. ⁶⁴⁸_{N.A.}, dated 18th August 1891, and its enclosures herewith returned, I have the honour to inform you that the estimate, as prepared in my office, amounted to Rs. 2,760 and contained a provision of Rs. 600 for compensation for land as you may see: this replies to No. 3713 C., dated 14th August 1891.

2. This item of Rs. 600 has been struck out by some one and altered into Rs. 370 and a note added opposite "grand total of estimate:" "exclusive of Rs. 600, the cost of portion of site already purchased from Departmental funds."

3. I do not know where these alterations were made, or by whom; neither do I know anything about the additional 10 cents of land proposed to be acquired at a cost of Rs. 370, referred to in G.O., No. 1526, dated 1st August 1891, para. 2.

4. When I first inspected the site I pointed out demi-officially to the Superintendent of Police that the site, which he had acquired, was much too large and quite the wrong shape, as the police station could not be built on it facing the road.

5. I think that the site marked in pencil, measuring 56' x 36', should be acquired for the police station and that the remainder of the long strip should be sold. I do not think it is fitted as a site for police lines as it slopes rapidly down into the bed of the river; see cross section herewith sent.

No. 458 W.

Copy forwarded to the Chief Engineer, Public Works Department, with reference to his endorsement No. 3713 C., dated 14th August 1891, herewith returned.

2. From the foregoing letter it is understood that the alterations in the item for compensation for land appear to have been made in the Police Department. There is some confusion about the site and the compensation provided for the same, which should be settled in the Judicial Department.

(Signed) R. R. E. DRAKE-BROCKMAN, Lt.-Col., R.E.,
Superintending Engineer, IV Circle.
31st August 1891.

Endorsement thereon in the Public Works Department, dated 10th Sept. 1891, No. 851 D.

G.O., dated 18th December 1891, No. 2561, Judicial.

Read—the following papers:—

Endorsement of the Public Works Department, dated 10th September 1891, No. 851.

From the Inspector-General of Police, dated 24th November 1891, No. 6735.

ABSTRACT.—Reporting upon the acquisition of site for the construction of a police station at Tiruchanur, North Arcot district.

Order—dated 18th December 1891, No. 2561, Judicial.

On each occasion upon which these proposals have been submitted to Government, different measurements have been given of the two blocks of land in question. Accepting the figures now given by the Inspector-General, it appears that there are two blocks of land, measuring, the one 36' by 200', the other 20' by 200'. The former has already been acquired; the purchase of the latter is still under negotiation. The station house measures 35' by 24'.

2. The Executive Engineer now reports that a strip, measuring 56' by 36', will be enough for the site of the building and the Inspector-General agrees with him and recommends that the remainder of the block already acquired be sold.

3. Of the second block, measuring 20' by 200', the Inspector-General proposes to buy a bit, measuring 20' by 36'. The object of the purchase is apparently to build the station-house facing the road. There is, however, no reason for so building it, as there are no windows at the back of the building, and in front there will be a clear space of 11 feet between the edge of the verandah and the opposite building if a space of 1 foot be left between the back of the station house and the adjacent structure.

2920

4. The Government, therefore, considers that no portion of the second block, measuring 20' by 200', should be purchased and that of the block already acquired a strip, measuring 144' by 36', should be resold.

(True Extract.)

(Signed) N. S. BRODIE,
Ag. Under-Secretary.

ORDER—dated 11th January 1892, No. 100 W., Public Works.

The estimate, as originally prepared by the Executive Engineer and amounting to Rs. 2,760, for constructing a second-class police station-house at Tiruchanur in the North Arcot district is sanctioned. The estimate, as thus framed, includes a sum of Rs. 600 for land already taken up for the building, a portion of which will be resold under the orders of the Judicial Department No. 2561, dated 18th December 1891. The sale will be undertaken by the Revenue Department in accordance with the usual procedure and the sale-proceeds refunded to the Public Works Department, the work being credited.

2. A sum of Rs. 1,500 has been provided for the work in the current year's budget.

3. This sanction has been registered as Provincial No. 98 W. of 1891-92 and classified as Civil Buildings, Original Works.

The estimate, amounting to Rs. 2,760, for constructing a second-class — in the North Arcot district sanctioned and the resale of a portion of land already acquired for the building ordered.

13TH MARCH 1893, No. 685 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From the Agent, South Indian Railway, dated 21st January 1893, No. 81, with enclosure.

Endorsement by the Consulting Engineer for Railways, dated Madras, 10th February 1893, No. 70.

Submitted for the orders of Government.

2. In June 1892 the Agent, South Indian Railway, submitted plans and schedules for land required permanently for the construction of additional staff quarters at Pakala junction station. This land included a plot, 3.13 acres in extent, which was intended to set aside for the purposes of a cemetery for the railway employés at that station.

3. The Agent now submits an estimate, amounting to Rs. 2,512, chargeable to the capital grant of the Villupuram Guntakal State Railway, for constructing a boundary wall round the cemetery at Pakala.

4. Under paragraph 1 (b), annexure A to appendix M, volume I, Government of India Public Works Department Code, all outlay on cemeteries is chargeable to Provincial funds from which the cost of the land must also be met, and as the Villupuram-Guntakal Railway is an Imperial State line, the cost of the land and boundary wall for the cemetery at Pakala cannot be debited to the grant for that railway.

5. The land for the cemetery, which is wholly Government poramboke, has been acquired and handed over to the railway authorities who were also permitted to present to the Bishop of Madras, on the occasion of his visit to Pakala on the 13th October 1892, a petition for the consecration of the ground.

6. Under these circumstances, it is requested that Government may be moved to confirm the grant to the Railway Company of the land in question and to allot from its Provincial reserve the necessary funds, viz., Rs. 2,512, for the boundary wall which, it is recommended, should be constructed by the Railway Company.

Office note from the Examiner of Public Works Accounts, dated Madras, 4th March 1893, No. 667 C.

According to the last clause of rule I of annexure A to appendix M of the Code, there appears to be no objection to the estimate referred to being sanctioned under Provincial, Original Works, Civil Buildings; but if the execution of the work is to be entrusted to the Railway Company, the expenditure should be transferred by it to the nearest Executive Engineer of this department and that Executive Engineer should be instructed to account for the outlay thus transferred to him by debiting it against the grant for his division.

13TH MARCH 1893, No. 685 W., PUBLIC WORKS.

ORDER—dated 13th March 1893, No. 685 W., Public Works.

The estimate, amounting to Rs. 2,512, for constructing a boundary wall round the cemetery at Pākala on the Villupuram-Guntakal State Railway, is sanctioned for execution by the South Indian Railway Company and the amount is appropriated from the Provincial reserve.

2. The attention of the Consulting Engineer for Railways and the Superintending Engineer, IV Circle, is drawn to the Examiner's remarks with regard to the adjustment of the expenditure which will be accounted for in the North Arcot division.

3. The grant to the Railway Company of the land in question is confirmed.

4. The sanction accorded in para. 1 of these Proceedings has been registered as Provincial No. 121 W. of 1892-93 and classified as Civil Buildings, Original Works.
