Enclosure.

No. 1627.

Executive Engineer's Office.

West Coast Division

Calicut - 19th May 1893

From

W. T. Baker Esq.

Offg. Executive Engineer

West Coast Division.

To

The Collector of Malabar

Calicut.

Enclosure

1 Tracing.

Sir,

1. Adverting to the correspondence regarding proposed improvements to Sonam Public Offices, ending with this office No. 2561 dated 29th August 1892, I have the honor to state that on inspecting the building a few days ago in company with the Tahildar of Sonam to decide whether his proposals and those of the Head Assistant Collector could be carried out, it suggested itself to me that the proposals of the Tahildar did not go far enough, that is to say - they would, if carried out, chiefly secure more light to the rooms from the Northern side during the monsoon but not more fresh air, except perhaps through the outer door of the

Sheristadar's

Shenitadar's room when provided with a porch.

2. If, instead of converting the door shutters from Venetian to glazed, the archways to the Verandah are closed by dwarf walls and glazed work in which doors and windows would find a place as required, not only would extra light and air be secured, but also the Verandah ^{space be made available} for use; as it would be effectually protected from drift rain, which is not the case at present.

3. This arrangement would do away with the porch asked for opposite the Tahsildar's Court room on the Northern side, for the glare could be kept out by the use of frosted glass in the archways in question.

4. Similarly the archway leading to the Sub Registrar's Office (upstairs) and the Police Guard room could be protected from drift rain, and ^{porches}

porches dispensed with.

5. The only porch necessary would be opposite the Shenitadar's room, which would obviate anything being done to present doors. 100/2 ✓

6. As regards the windows I would, as suggested by the Tahsildar, add glazed shutters to them on the inside leaving the Venetian shutters as they are on the outside.

7. The accompanying tracing will give some idea of the appearance of the Northern face of the building with my suggestions carried out.

8. I would mention that the Tahsildar concurred in my views.

9. Should you approve of the suggestions now made, please obtain the necessary sanction of government to enable me to frame the plan and estimate for the work.

I have etc.
(Sd) W. V. Baker
Offg. Executive Engineer

Arthur B. Radley

a. J. Collector

Malabar Collector's Office.

Calicut. 12th June 1893.

From,

H. Bradley Esq. 1894

ag. Collector of
Malabar.

To,

R. C. C. Carr Esq.

ag. Secretary to the Commr.
of Land Revenue,
Madras.

Sir,

In order to protect the northern
side of the public offices at Ponnani
from drift rain, the late Deputy
Collector, Southern Division, submitted
in June 1890, an estimate for putting up
bamboo screens, but my predecessor
refused to sanction it on the ground
that the erection of such screens, com-
posed of combustible substance,
would increase the danger of fire
and also spoil the appearance of the
building. The matter was referred
to the P. W. Department, and the
Executive Engineer has now forwarded
to me a plan showing the improvements
which

which he considers necessary.

I have the honor therefore to request that the P. W. Department may be instructed to prepare the necessary estimate.

2. The plan and a copy of the Executive Engineer's letter dated 19th May 1893, No 1627, are enclosed.

I have the honor to be,

Sir,

Your most obedient servant.

W. H. Radley

Ag. Collector.
