22. *Work abstracts* were compared with (i) vouchers, (ii) registers of work, and (iii) schedules of expenditure.

The following works were noticed, for which estimates have not yet been sanctioned :—

	Outlay to 31st Oct. 1892. RS.
Provincial—	
Constructing new taluk cutcherry, Tiruppattúr	5,945
Do. do. Tiruchengódu	2,424

Closing breach of Annasagaram tank	192
Emergent repairs to Mallur tank	325
Repairing Ponnasamudram do.	67
Do. Konasamudram do.	71

23. *Completed measurement books.*—Reference is invited to the recommendations made on this subject in paragraphs 24 and 25 of inspection report, dated 10th December 1892, on the accounts of North Arcot division.

36. *Service books* have all been attested within the last five years, but no register is maintained. Early introduction of the form proposed in Examiner's office-note No. 214-A., dated 28th September 1892, on which Government has not yet passed orders, is most desirable.

41. *Records.*—Two large packing cases, said to contain records from 1862, appear to call for attention. If the contents are worth keeping, it is desirable that they should be sorted and carefully put away on racks, where they will be free from the ravages of white ants to which it was said they were at present subject; but it seems a pity to burden a new division with an accumulation of useless records and the destruction of such as are no longer of value is recommended with reference to Code, volume I, chapter VI, paragraph 40.

43. *Sub-divisional office.*—The office of the Salem sub-division was visited on the 14th December 1892 and the account portion of the work was found to be well and methodically done, although, owing to the non-receipt of forms, full effect had not yet been given to the simplifications in procedure authorised in G.O., No. 2216 W., dated 11th August 1892.
