15th January 1894, No. 112 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following paper:—

Office-note from the Examiner, Public Works Accounts, dated Madras, 23rd December 1893, No. 2765 D.

The Executive Engineer, Vizagapatam Division, has raised a question as to how dismantled materials obtained from buildings undergoing repair by Civil officers should be dealt with, *i.e.*, whether they should be disposed of by the officer carrying out the repairs or made over to this department for disposal.

2. The case that has led to the reference is this: The Superintendent of the District Jail, Vizagapatam, has carried out certain repairs to the jail buildings at that station from funds provided in the civil budget, and the Executive Engineer wishes to know whether some old dismantled materials obtained during the course of these repairs should be handed over to him for dispcsal.

3. The buildings in question are no doubt in charge of the Public Works Department and borne on the Executive Engineer's register of buildings, and although there is no objection to ordinary repairs being carried out by the Jail Superintendent, yet this permission does not, it is considered, entitle the Jail Department to control the disposal of old materials obtained from the buildings which should ordinarily be disposed of in the Public Works Department and accounted for in the Public Works Accounts, and as it is possible that similar cases may occur in other divisions I request that orders of Government may be obtained on the point.

Order—dated 15th January 1894, No. 112 W., Public Works.

As a general rule materials obtained from the dismantlement of buildings when undergoing repairs will be disposed of by the officer who carries out the works, but their value will be credited to the Public Works Department if the building from which they are obtained is borne on the Public Works Department register.
