Madras, 23rd December 1893.

OFFICE NOTE No. 27650

To

W.

The Executive Engineer Vizagapatam Division has raised a question to how dismantled materials obtained from buildings undergoing repair by Civil Officers should be dealt with i. whether they should be disposed of by the officer carrying out the repairs or made over to this department for disposal.

2. The case that has led to the reference is this - The Superintendent of the District Jail, Vizagapatam, has carried out certain repairs to the Jail buildings at that station from funds provided in the Civil Budget, and the Executive Engineer wishes to know whether some old dismantled materials obtained during the course of these repairs should be handed over to him for disposal.

3. The buildings in question are no doubt in charge of the P.W.D. & are on the Executive Engineer's register buildings, and although there

objection to ordinary repairs being carried out by the Jail Superintendent, yet this permission does not, it is considered, entitle the Jail Department to control the disposal of old materials obtained from the buildings, which should ordinarily be disposed of in the P.W. Department and accounted for in the P.W. Accounts, and as it is possible that similar cases may occur in other divisions I request that orders of Government may be obtained on the point.
