GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following paper :—

> From Lieutenant-Colonel A. W. SMART, R.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 11th March 1894, No. 553 P.R.

After inspection of the works in the Periyár II Division, I have come to the conclusion that it would be wisest to stop the works at the end of the 11th reach, main channel, leaving the 12th reach and 11th and 12th branch channels to be made hereafter when irrigation has somewhat extended and water has been brought down to the 11th reach. My reasons for this are—

(a) that the works still to be done below the 11th reach, estimated at 1¼ lakhs, can be easily completed in one year.

(b) that to complete channels and especially small ones long before they are required lead to useless expenditure on upkeep and repairs.

(c) that when the water has reached the lower parts of the main channel we shall be in a better position to align the new distributaries and to fix their dimensions.

2. The estimated cost of works still to be done down to the end of 11th reach is 2 lakhs, *i.e.*, this will be the value of the work that should be completed in and by the end of 1894–95. The normal yearly expenditure on works hitherto has been about 2 lakhs.

3. I submit two alternative proposition statements for temporary establishment required to the end of 1894–95. One showing the establishment required in case the Executive Engineer is kept on and a separate division; the other gives the establishment required if the works are placed under the Executive Engineer, Madura division; in the first case one Executive Engineer and one sub-division will be sufficient; in the latter two sub-divisions are in my opinion required.

4. I propose to keep on the present establishment till the end of April to allow of time for the changes to be made and to give one month's notice to those whose services we shall be obliged to dispense with. A separate statement accompanies for the two months of March and April.

5. The two alternative statements show the cost of the temporary establishment required for ten months from May 1894 to February 1895 inclusive. For the Executive Engineer it is considered that a 2nd-class establishment (at present 1st class) is sufficient to complete works; cost for 10 months Rs. 5,205, including accountant at Rs. 80 per month. In both cases two sub-overseers instead of four as at present are provided. The cost of establishment for 2 sub-divisions will be Rs. 3,280 for the ten months.

6. With regard to upper subordinates, I would propose, if the Executive Engineer and one sub-division scheme is chosen, that Mr. Carless and Mr. Enright remain; this will free Sub-Engineers Krishnamachariar and Vaidiyalingam Pillay for transfer elsewhere. There are six upper subordinates on the work now, two of these—Sergeant Rule and Mr. Noronho—may be transferred.

7. If the scheme of two sub-divisions is chosen, I would propose that Mr. Enright and Sub-Engineer Krishnamachariar remain as sub-division officers, and, as above noted, four overseers instead of six as now. A copy of the distribution statement of Periyár II is enclosed for reference.

Note by the Chief Engineer, Public Works Department.

I concur in the views expressed by the Superintending Engineer in the first two paragraphs of his letter, and consider that of the two alternatives suggested in the third paragraph, the second, that is, the abolition of the Periyár No. II division, should be adopted.

If this recommendation be accepted separate proposals will be submitted for the employment of the Executive Engineer (Mr. Carless) now in charge of the division.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Chief Engineer, P.W.D.

15th March 1894.

Order—dated 21st March 1894, No. 806 W., Public Works.

His Excellency the Governor in Council accepts the recommendation of the Chief Engineer, Public Works Department. The Periyár No. II division will be abolished and the works belonging to it formed into two sub-divisions under the Executive Engineer, Madura division.

2. Separate orders will be issued regarding the employment of Mr. Carless; the employment of the subordinate staff now attached to the division will be dealt with by the Chief Engineer.

3. The proposition statement marked B, submitted by the Superintending Engineer, is approved, but formal sanction to it and the general statement for the circle (marked A) will be communicated in separate orders.

Reporting that he has, subject to approval, sanctioned the constitution of two Sub-Dns under the Exe: Engr Madura Dn to take the place of the Lake No. 2 Periyar Dn, submitting for sanction a proposition statement for increasing the pay of Storekeeper & requesting to authorize the Examiner to admit pay for the thrown out men up to 15 May 1894.

M 45
21/5

Upper Sub Division in charge of Mr. S. Kristnama Chariar, Sub Engineer, Head Quarters Madura.	First Six Reaches from Peranai and 1 to 5 Branch Channels
Lower Sub Division in charge of Mr. T. D. Enright, Supervisor, Head Quarters Madura.	Seventh to 11 Reaches and Sixth to 10 Branch Channels.

I have sanctioned the constitution of these Sub Divisions subject to your approval.

2. The Executive Engineer strongly recommends a permanent increase of Rs 10 to the pay of the Store Keeper of Madura Division on account of his additional duties connected with the Tools & Stores of the abolished Division now transferred to his charge. There must certainly be some extra work for the Store Keeper, but the increase of Rs 10, or Rs 5 in excess of the pay of Store-Keeper, first Class Division, appears high. It is likely that the office establishment will have to be raised to that of a first Class Division, eventually

× at present Rupees 20.

on

sted therefore that the Store Keeper's pay should be raised to Rs 25 from the 16th of April 1894. A proposition statement to this effect is submitted for sanction.

3. In this Office letter printed with the G.O. under reference & in the proposition Statement C submitted therewith, provision was made for 2 months — March & April — for establishment to allow of time for changes & to give one month's notice to those whose services are dispensed with. This proposal was made on the presumption that the change would take place on the 1st of April; but the Division was abolished on the afternoon of the 15 April, and notices were served on the thrown out hands stating that their services will not be required after the 15 May 1894. It is requested that the Examiner may be authorized to admit the pay of those men up to the 15 May 1894.
