Proceedings of the Board of Revenue

(Land Revenue),

Dated 7<sup>th</sup> May 1894  
No. 2451 M

Read the following letter from R. Sewell  
Require Collector of Bellary dated  
27 April 1894 El B No 941.

In reply to Board's Proceedings  
No 1629 dated 29 March 1894,  
I have the honor to state that the  
extension of the Telegraph line to  
Yammiganoor will not prove  
remunerative because the only  
industry of weaving cloths that  
is carried on there is, unlike other  
trades, mostly dull. The train  
communication near at hand to  
places where the cloths are usually  
exported, satisfies the require-  
ments of the trade of the station.

Adverting to your No. 60 P.M.S. of 1<sup>st</sup> March 1894, the whole of the sum of Rs 4924, represents the value of Iron and Steel articles manufactured in India in this Workshop for the P.W. Stores Division.

2. These articles are the same as were formerly made in the Workshops, before the introduction of the New Rules page 567 para 3 of Volume I for Government of India Code.

3. The orders therefore do not affect the Stores Division to any appreciable extent.
