3799/54

Reviewing the programme of famine relief
works for 1894-5 submitted by the Collector of
South Arcot.

2. The programme provides for the construction of 8 new irrigation works estimated to cost 82 lakh and for repairs to existing works at 25.08 lakhs; for forest works, consisting mainly of line clearing, to cost 24 lakh; the construction of 392 miles of new roads, to cost 3.39 lakhs, and repairs to existing roads, to cost 5.73 lakhs; for repairs to drinking water-ponds at 2.68 lakhs and other miscellaneous works costing 5.72 lakhs. The last item includes a provision of 1.87 lakhs for land improvements to be executed by the aid of State loans; and provision for such works as construction of village chavadies and removal of prickly-pear. The total provision made amounts to Rs. 43,66,136 and the works are estimated to be sufficient to provide employment for 20 per cent. of the total population of the district. The percentage of the population provided for in Kullakurehi is still considerably below the prescribed minimum, but the Collector is taking steps to add further works to the programme for that taluk.

3. Estimates are reported to be ready for works to cost Rs. 25,47,161, or nearly 61 per cent. of the total provision excluding loan works for which no estimates are required.

4. At the end of the programme, a list of additional works is appended, the probable cost of which is put at Rs. 7,39,700. These works or some of them might also, in the event of serious distress, be made available. The entry in this list, however, of Rs. 1,200 as the cost of the channel from the Gingee river to the Gidangal tank appears to be a mistake for Rs. 12,000.
