(H. E. N. 1399 W. d 6th June '94.)

To

The Secretary to the
Government of India
P. W. Department.

Sir,

With reference to
your letter no. 380 on dated
11. December 1893, I am directed
to state that so far as can
be ascertained, no articles
of iron or steel manufacture
made up from imported
raw material, of the
classes mentioned at page
571 Appendix C, P. W. Code
were purchased in this
Presidency during the year
1892-93.

2. I

by him of Indian Manufacture were such as have always been made in this country, and did not include any articles of the classes mentioned in the List given at page 571. Appendix O-P. W. Code.

3. In his letter forwarded to you with my endorsement No. 99 Wd 6th April 1894 the Executive Engineer, Kistna Eastern Division states that the Expenditure of Rs 595 shown against his Division in Part III of the Statement of Expenditure on stores for 1892-93 was incurred on the purchase of Engine oil from Vacuum Oil Company Bombay.

4. The Supt. of works Periyar No. I Division states in his letter forwarded to you with my endorsement No. 131 W of 2nd May 1894 as to the sum of Rs 7390 shown against his Division that the only information he could furnish is that steel jumpers were purchased for Rs 3190 and that any further information can be given only after search made through all the Bills of the year.

5. I

5. I was therefore requested in your Memo =
= random No. 1896 C of 10th May 1894 to submit the Complete Statement based on the report of the Supt. of works above mentioned.

As jumpers do not come under any of the classes of Articles mentioned in Code Appendix O page 571 (unless articles purchased in Periyar for the difference Rs 4200 come under any of those classes) the information as far as available shows that no articles of iron or steel manufacture made up from imported raw materials of the classes mentioned in Code Appendix O page 571. were purchased during 1892-93 and that there is nothing by which the statement of Expenditure on stores for 1892-93 already submitted to the Government of India, can be made complete except by the additional information that no articles were purchased during 1892-93 of the classes mentioned in Code Appendix O page 571. But this cannot be said until it is known what articles were purchased in Periyar for the Rs 4200 above mentioned, as to which the Supt. of Works has not given any information.

I have the honor to be
