The orders marginally quoted authorised the adjustment of the cost of the Parson's boring apparatus against the provision for London supplies in the Provincial P. W. Budget. These orders were duly communicated to the Examiner, P. W. Accounts.

2. The boring apparatus, with the additional tools referred to by the Examiner, will be treated as issued on loan to the Sanitary Engineer. Packing and conveyance charges will be debited to the Sanitary Engineer's

Examiner, P.W. Accounts,

Madras, 25th May 1894.

Office Note No. 2075-2
A

To W.

A set of Parson's detachable boring tools with 400 feet tubing were got out from England for the Local and Municipal Departments for use in Municipal Towns, and the cost thereof Rs. 8543-II-9, was adjusted in the P.W. Stores Division by debit to Provincial Tools and Plant, in September 1892, apparently in accordance with G.O. No. 2820 W. dated 26th. October 1891.

2. These tools together with some additional tools and plant and stock articles (value as per margin) were, the General Superintendent P.W. Stores reports, sent to Cochin, to the Sanitary Engineer to Government in October 1893 and the General Superintendent now wishes to know whether the tools should be treated as lent to the Municipal Department or the value recovered from that department.

3. As apparently there are no orders on the subject other than the G.O. referred to in para 1, please let me know whether the cost of the boring apparatus should be debited to the Sanitary Engineer (Civil Department) or not.
