From the Supdg. Engineer IIIrd Circle.

NOTE BY TECHNICAL SECTION.

Name of work Providing barbed wire fences around the Taluq Office at Royachoti in the Cuddapah District.

Amount of Estimate Rs 560

This estimate has been framed with reference to para 2 of G.O. No. 739 W. dated 17th March 1893 & provides for fencing the Taluq Office at Royachoti with + barbed wire 5 feet high for a length of 1600 feet.

Provision has been made in the estimate for the necessary standards & straining posts.

The rates cannot be checked.

The estimate may be sanctioned as supplemental to the sanction accorded in G.O. No. 739 W dated 17th March 1893

4.VI.94

x W.
It does not say barbed wire, but merely a wire fence. Barbed wire seems unsuitable for a cutcherry compound where there are often bare horses about which might injure themselves against it.

The S.E.'s letter 14.6.94 says barbed and [illegible] - It should be plain wire, not barbed

PUBLIC ETC. DEPTS.

From
Rao Bahadur S. Seshayya B.A.,
Tamil Translator to Government,

To
The Chief Secretary to Government,
Ootacamund.

Sir,

I have the honor to state that I have made all necessary arrangements to get the work of the Tamil Translator's office done without delay by having a portion of my office establishment with me at Kumbakonam. I think it quite necessary that the other portion of my establishment should remain in Madras to get the work done with despatch.

The office of the Tamil Translator to Government is at present located in a private building in Vencatramier's Street, Black Town, the rent being paid by the Translator from his own allowance. It is not desirable that valuable public records some of which are confidential should be lodged in an insecure private house. I therefore beg to request that accommodation may be given for the T

Enclosure
G.O.

Sir,

With reference to your endorsement No. $\frac{238}{W.C.}$ dated 19th May 1894, I have the honor to point out that the question of improvement to the Kallai river bar has already been fully dealt with by Col: A.T. Fraser. R.E. when in charge of the West Coast Division in his report to the Supdg: Engineer, Fourth Circle, No. 131 dated 6th March 1888, which is embodied in G.O. No. 1627 W. dated 4th June

June 1888.

2. The only satisfactory arrangement for keeping the bar open is, I consider, to protect the sides of the channel or cut through the bar with sheet piling and to carry out into the deep sea level in continuation of the piling two rough stone arms or groynes so as to counteract the tendency of the littoral currents to deposit sand at the mouth of the bar.

3. The success of the scheme is a matter of cost.

4. On the recent visit to Calicut of His Excellency Lord Wenlock it was arranged — that the bar was to be kept open for the timber trade by the Public Works Department, the necessary funds being collected from the interested merchants

by

by the Revenue Department and placed at our disposal.

5. The bar showed sign of closing about the middle of January last when an Estimate was framed for Rs 200 to keep it open for a period of 2 months, viz to the 15th March 1894.

6. Only a portion of that sum was expended on the work and as the timber trade showed signs of slackening off rapidly, it was decided in consultation with the principal timber merchants, not to attempt to continue to keep the bar open any longer, as it was not worth the expenditure.

7. I quite agree with the Sanitary Commissioner in attributing to the rafts of unseasoned timber and bamboos

largely

largely moored in the Kallai river in the vicinity of its mouth the foul odours which eminate from the river, especially when the bar is closed, and that the desire to keep open the bar by artificial means when it shows sign of closing is primarily in the interests of the timber trade. Here also, there does not appear to exist any unanimity amongst the timber merchants as to the length of time the bar should be kept open by manual labour.

I have &c &c
