Madras

15th January 1891

To

Mr. J. Irvine Esq. C. I. E.

Consulting Architect

to Government

Sir,

May I be allowed to
apply through you for the acting
appointment of Sanitary Engineer
to Government said to be now
vacant.

2. In carrying out the
large public buildings and other
public improvements to the city
of Madras during the last eleven
years, the most modern sanitary
appliances and methods had
to be considered and executed
in connection with these
important works. Especially
was this the case when the
public buildings or improve-

improvements were in the vicinity
the existing and very defective
drains of Madras. Special
sanitary arrangements
utilizing or deodorizing shafts,
traps, connections &c. had to be
made to counteract the effects
of these defective drains. I
am now diverting one of the
largest main drains of Madras
in connection with the new

Law College lately sanctioned.

3. When the Govern-
ment in 1890 appointed a com-
mittee of three of its principal
officers to consider the sanitary
condition of Madras, I submit-
ted a report to that body,
suggesting certain sanitary
improvements, which it was so

good

good as to incorporate, and to
publicly express its approval of,
as published in the Madras Times
of 30th December 1890. In fact
the improvements to the drainage
system of Madras, suggested in
the last para of my report,
are very similar to those now
recommended by Mr. Cousins
the Sanitary expert.

4. An experience of
19 years in the P. W. D. or in
hydraulic works (irrigation
and tidal) will be sufficient
to show that I am qualified
to make all the hydraulic
calculations required of a
Sanitary Engineer.

5. My energy & his
Excellency the Governor Lord

unlock was so good as to publicly
test at the opening of the
new Law Courts.

6. I may also men-
tion, that Her Majesty's
Secretary of State for India,
and the Secretary for the
Colonies, not long ago, called
upon me through the Madras
Government, to explain my
patent for utilizing Surf
action as a mechanical force.
A subject which can be brought
to bear on many Sanitary
improvements.

I have the honor to be
Sir
Your most obedient Servant
Wm. L. L.
