in. Item 3 is needed for carrying off the surplus water from the pipe into the street drain. At present, for want of a proper outlet, the water stagnates in the compound and at the entrance gate, and thus causes much inconvenience.

Requesting the favor of a very early reply.

Proceedings of the Board of Revenue.

(Land Revenue.)

Dated 1st June 1894

(True Extract,

(Signed) L. M. Wynch
Secretary

To

The Secretary to Govt. P.D. with letter in original to be returned.

rer

Letter from the collector of
Madras Ref. No 1995 dated 29 May
Gowl
1894

I have the honor to request
that the Board will be pleased to
obtain the sanction of Government
directing the Consulting Architect
to Govt to prepare an estimate for
the following additional work needed
for the office of the Deputy Collector
of Madras

(1) Stone flooring for the covered
verandah in which the larger weights
and measures are tested by the
stamping weights and measures
Department.

(2) Putting up walls or screens
to the said verandah.

(3) Construction of a masonry
drain, connecting the water pipe
into the street drain.

2. Item 1 is essential as the
floor must be hard enough to sustain
a good deal of hammering that is
carried on there. Item 2 is for
sheltering the balances from wind.
It has been found difficult to adjust
the weights when gusts of wind come
