Plastering & Pointing the walls are to be plastered with 2 coats of chunam except the steps which are to be with Portland cement.

Flooring is to be of 8" square pressed flooring bricks laid over 4" of concrete & pointed with Portland cement.

Roofing is to be of Mangalore tiles laid over teak rafters & ceiled with 3/4" Cedar wood planks for the second room the other rooms are ceiled with bamboo mats.

Doors and Windows are to be of teakwood of the description which is in the estimate.

Roof timbers to be of jumbur wood (Karim: & under) & wood ciled 3 coats.

Scantlings are correct.

Rates are fair.

The plinth area of the main building is 1681 square feet, and the cost per square foot will be Rs. 2-4-1.

The plans and estimates have been countersigned by the Collector of South Canara and approved in the Revenue Dept. Department.

REMARKS.

The plans & estimate have been framed at the request of the Collector & provide for constructing a new Sea Customs house at Baindur in the South Canara District.

In the report accompanying the estimate it is stated that the existing building which was constructed at a cost of Rs. 600 on the basement of an old Salt Column is unsuitable owing to insufficiency of accommodation & also to its situation as it is surrounded by private gardens & thereby obstructing the view of the shipping etc. It is therefore proposed to utilize this building for other purposes & construct a new one, as

As per plan submitted, on a new site commanding an open view of the shipping & free from obstructions.

The area of accommodation proposed is as follows:-

Office room — 18' x 15'
 Second room — 15' x 15'
 Store room — 20' x 15'
 with a front verandah 11 feet wide.

The foundations are proposed to be built of laterite in chunam over a bed of cement to a depth of 4 1/2 feet. If concrete be laid throughout to ground level 4 feet wide & 4 1/2 feet deep a saving of Rs. 80 will be effected. The estimate has been altered accordingly in pencil.

of the Estimate and requesting him to explain why the work was not included in his List of Works for 1894-95.

Read also letter from the same officer dated 30th April 1894, No 1793, retransmitting duly countersigned, the Estimate for the construction of a new Sea Customs office at Baindur and stating that it is not absolutely necessary that the building should be erected during the current year.

Resolution Dated 11 May 1894, No 2047

The Estimate for the construction of a new Sea Custom House at Baindur at a cost of Rs 3870 is submitted to Government for sanction and for execution by the Public Works Department

2. It is reported that the present building which was constructed at a cost of Rs 600/- on the leasehold of an old salt Cotaur is unsuitable owing to insufficient accommodation and also to its situation, as it is surrounded by private gardens obstructing the view of the shipping and of the landing and shipping operations. It is also reported to be damaged by white ants and not calculated to last long.

3. The work was entered in the Public Works Department Budget for 1893-94, but does not appear in that for 1894-95. It may be sanctioned for execution early in 1895-96.
