READ—the following papers :—

From Lieut.-Colonel R. R. E. DRAKE-BROCKMAN, R.E., Chief Engineer for Irrigation, Tank Restoration Scheme, to the Secretary to Government, Public Works Department, dated Chepâk, 6th June 1894, No. 803 T.

As there has been some misapprehension with reference to the orders conveyed in G.O., No. 711 W., dated 13th March 1894, anent the manner in which the salary, travelling allowance, and contingent bills in connection with the Tank Restoration Scheme have to be prepared, the Examiner of Public Works Accounts insisting on a detailed bill for the whole of the Tank Restoration Scheme establishment, including the parties, being prepared in the Central office, or, as an alternative, requesting that a return to the former system of preparing bills separately for each party may be authorized, I have the honour to request that, in consideration of the extra work which the sanctioned arrangement would necessitate in the head office, a return to the former system of allowing each party to prepare its own bills may be sanctioned.

2. Owing to changes amongst the members of the parties, the accompanying statement showing the establishment sanctioned in each party in G.O., No. 711 W., dated 13th March 1894, and that now actually existing in each party and requiring sanction is submitted. It will be observed that no extra cost is involved and that existing members of the Tank Restoration Scheme have merely been transferred according to requirements.

3. Sanction is also requested to my making changes in establishment within the sanctioned scale for the whole Tank Restoration Scheme without a reference to Government and that the Examiner may be instructed to accept the intimation of such changes as sufficient authority for his passing travelling and pay bills.
