READ—the following paper :—

From F. R. UPCOTT, Esq., Consulting Engineer for Railways, to the President, District Board, Tanjore, dated Ootacamund, 21st May 1894, No. 25/O.

In reply to your letter No. 339 of 2nd May 1894, I have the honour to say that I do not consider a year's delay in proceeding with the construction of the extension of the Máyavaram-Muttupet Railway to Adirámpatnam would add anything appreciable to the cost thereof.

2. Your Board very rightly in my opinion wish to have the harbour examined and an estimate prepared to provide a jetty or pier to facilitate the landing and shipping as they believe this will influence the receipts of the proposed extension. By delaying the extension, there would be time for this examination and the receipts on the Máyavaram-Muttupet Railway would afford them a guide as to the amount which they could afford to spend on the harbour of Adirámpatnam.

3. I suggest your Board addressing the Chief Engineer, Public Works Department, Madras, with reference to a survey and report of the capabilities of the harbour.

Disposal No. 230.

Submitted to Government in the Local and Municipal Department with a copy of the District Board's resolution with reference to G.O., No. 159 F., dated 23rd February 1894, communicated with G.O., Mis. No. 509 L., dated 15th March 1894.

2. The opinion expressed by the Consulting Engineer that the cost of improving the harbour would fall on Local Funds can hardly be correct.

5. The request of the District Board that Government may be pleased to depute a competent Engineer to examine the harbour and advise how the landing and shipping difficulty may best be met has my concurrence and support.

VALLAM,
31st May 1894.

(Signed) H. M. WINTERBOTHAM,
President.

ENCLOSURE.

EXTRACT from the Proceedings of the District Board of Tanjore, dated 28th April 1894.

* * * * *

25. Read G.O., No. 159, of 23rd February 1894, directing that the contribution to Provincial funds on account of expenditure in the current year on the Máyavaram-Muttupet Railway be adjusted in March 1895, limiting that sum to be withdrawn from Government securities to certain amount, and requesting the President, District Board, to state whether he recommends the extension of the line to Adirámpatnam during 1894–95.

Resolution.—Owing to the shallowness of the water at Aidrámpatnam, the landing and shipping of goods is now carried on under such difficulties that the Board doubts whether the immediate extension of the railway can be advocated unless the construction of a pier or screw piles or some such expedient is understood to be an integral part of the scheme. Until the shipment of goods is made easier, it is almost certain that very little grain will be carried over the new line for exportation. Except from the salt and passenger traffic, there will be no large receipts.

The passenger traffic will be the most paying item, but the Board is unable to compute its amount. Sir Henry Stokes in 1882 stated that the average sales of salt at the three factories near which the line will pass amounted to 6,357 tons. The Salt Administration Report for 1892 gives the total sales at 5,729 tons. Supposing that 6,000 tons of salt be carried over the new line an average distance of 6 miles at 3 annas per truck of six tons, we get an annual total of Rs. 1,125 which will not go far towards paying a dividend. A great part of the salt produced must of necessity continue to supply the western parts of Mannárgudi, the northern parts of Pattukkóttai and the southern parts of the Tanjore taluk which cannot be fed by rail. At the same time there is no doubt room for a large increase in the manufacture of salt at all three factories, and whatever quantity went by rail to Muttupet would be carried on north and add to the earning power of the new line. From unofficial inquiries the Board is given to understand that it will make little or no difference in cost whether the extension be carried out at once or be postponed, and if this be so the Board ventures to suggest that the wisest course would be for Government to have the harbour examined by a competent Engineer with a view to ascertain how the landing and shipping difficulty can be overcome and whether any substitute for a screw pile pier can be suggested. If delay will add greatly to the cost of the extension, the Board is prepared to approve of the extension being undertaken at once.

Passed by a majority of 18 to 3, Messrs. Mirthingia Iyer, Ramasami Iyer and Khadir Mohideen Marakayar, members from the Pattukkóttai taluk, dissenting on the ground that the extension should be proceeded with at once.

25. Read G.O No 159 of 28th
February 1894 directing that
the Contribution to Provincial
Funds on account of
Expenditure in the Current
year on the Mayavaram
Mutthupet Railway be adjusted in

the March 1895 limiting the sum
to be withdrawn from Government Securities to
certain amount and requesting the President District
Board to state whether he
recommends the extension of
the line to Adirampatnam
during 1894-95.

Owing to the shallowness of the water at Adirampatnam, the landing and shipping of goods is now
carried on under such difficulties that the Board doubts
whether the immediate extension
of the Railway can be advocated unless the construction
of a pier or screw piles or
some such expedient is understood to be an integral part
of the scheme. Until the shipment of goods is made
easier, it is almost certain

that

that very little grain will be carried over the new line for exportation. Except from the salt, and passenger traffic, there will be no large receipts. The passenger traffic will be the worst paying item but the Board is unable to compute its amount. Sir Henry Stokes in 1882 stated that the average sales of salt at the three factories near which the line will pass amounted to 6357 tons. The Salt Administration Report for 1892 gives the total sales at 5729 Tons. Supposing that 6000 tons of salt be carried over the new line an average distance of 6 miles at 3 as per truck of six tons, we get an annual total of Rs 1125 which will not go far towards paying

paying a dividend. A great part of the salt produced must of necessity continue to supply the western parts of Ramnad, the northern parts of Pattukkottai and the southern parts of the Tanjore Taluq which cannot be fed by rail. At the same time there is no doubt, room for a large increase in the manufacture of salt at all three factories, and whatever quantity went by rail to Muthupett would be carried on north and add to the earning power of the new line. From unofficial enquiries, the Board is given to understand that it will make little or no difference in cost whether the extension be

that very little out at once, or
else postponed, and if this
be so, the Board ventures
to suggest that the wisest
course would be for Govern-
ment to have the harbour
examined by a Competent
Engineer with a view to
ascertain how the landing
and shipping difficulty
can be overcome and whether
any substitute for a screw
pile pier can be suggested.
As delay will add greatly
to the cost of the extension,
the Board is prepared to
approve of the extension
being undertaken at once.

Passed by a majority
of 18 to 3, Messrs Muthuzia
Iyer, Ramasami Iyer and
Khadir Mohideen Marakayar
Members

Members from the Pattukko-
tah, dissenting on the ground
that the extension should
be proceeded with at once.
