present quarters would have to be turned to other account. The inconvenience of there being no Government circuit house for touring officials or even an ordinary travellers' bungalow at Anantapur is one much felt probably. The travellers' bungalow exists, but is always put to use as a residence. Sanction of a new medical quarters would set it free for its legitimate use."

7. Surgeon-Major Hakim, who has since been posted to Anantapur, now complained of the inadequate accommodation provided for the District Surgeon. I have myself seen the building and consider that it is not suitable for occupation by a District Medical officer and affords inadequate accommodation for a married man and family.

8. I understand that the Collector, the Police Superintendent, the District Forest officer and even the Sub-divisional officer of the Public Works Department have upstair rooms, and it is only reasonable to suppose that the District Surgeon, who is charged with a rent of Rs. 75, which is more than what is paid by any of the above officers, the Collector excepted, should likewise be provided with a suitable house.

9. Under these circumstances, I strongly recommend that orders may be issued for the construction of a new house for the District Surgeon, Anantapur, on the standard plan for a Sub-Collector and the present building utilized as suggested by the Superintending Engineer or for some other purpose.

From Surgeon-Major-General C. SIBTHORPE, Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Coonoor, 6th June 1894, No. T. 1.

In continuation of my letter No. O. 71, dated the 12th May 1894, I have the honour to forward the enclosed letter from the present Acting District Surgeon, Anantapur, requesting that steps may be taken to make his house habitable during the rains.

Enclosure.

From Surgeon-Major H. M. HAKIM, Acting District Medical and Sanitary officer, Anantapur, to the Secretary to the Surgeon-General with the Government of Madras, dated Anantapur, 25th May 1894, No. 51.

I have the honour to request the favour of your submitting this letter to the Surgeon-General with the Government of Madras, with a request to move the Superintending Engineer, III Circle, Bellary, to take such steps as he may consider necessary at an early date. My predecessors have been writing and complaining about the District Surgeon's quarters at this station even when they had not to bear the discomforts during the rains, and I request that Superintending Engineer be asked to depute a responsible officer to see into the following defects before the rains set in, as the present Sub-divisional officer is leaving the station:—

(1) The spouts that carry the storm water off the terraced roofs discharge on to the roofs of the verandah which are tiled with Mangalore tiles and the water coming down with a great force gets between the ridges of the tiles and on to the verandahs as if there was no roof at all.

(2) The flooring of the verandahs, instead of sloping outwards, slopes inwards. The water collects and finds its way into the house from under the door frames which are neither let in to the flooring nor cemented and makes the house very damp and uncomfortable, not to say of the deterioration of property. The doors and windows of the dressing room are unprotected by weather boards and the water finds its way into the rooms, destroying matting, &c., which is Government property. The ventilators in the bed rooms are also unprotected and the water is blown in by the force of the wind into the bed rooms. The stables and servants' godowns afford very little shelter from the rain to the occupants. However small these defects be in the structure of the building and easily remediable, they make the house very uncomfortable and my children are already beginning to suffer, and I am afraid, after a heavy shower, the house will be perfectly uninhabitable. Although I know that it will be impossible to undertake elaborate structural changes now, I only request that such changes as are essentially necessary to make the house comfortably habitable during the rains may be made at an early date.

No. 1304, Public.

Forwarded to the Public Works Department for consideration.

Ootacamund, (Signed) J. F. PRICE,
26th June 1894. Chief Secretary.

Order—dated 3rd July 1894, No. 1645 W., Public Works.

The Superintending Engineer, III Circle, will at once arrange to remedy the structural defects brought to notice by the District Surgeon in his letter No. 51, dated 25th May 1894. He will also submit a plan and estimate of the cost of adding to one of the wings a room about 20′ × 16′ with surrounding verandah to serve as an office room; also of a bath room in the back verandah of this additional room which might serve as a bed room at option.

2. The effect of these additions on the rental should be reported.

(True Extract.)

for the bath-rooms separately. I shall therefore feel obliged by your favoring me with a plan and estimate revised in the terms of the above suggestions and forwarding them to me with the whole correspondence for countersignature and transmission to Government.

From Colonel H. SMALLEY, R.E., Superintending Engineer, III Circle, to the Surgeon-General with the Government of Madras, dated Bellary, 5th November 1890, No. 2290.

As requested in your letter No. 6700, dated 29th October 1890, I have the honor to forward a plan drawn in accordance with your wishes, except that I have only provided a stout wooden and canvas screen between the dressing and bath rooms instead of a masonry wall which would control the space very much in my opinion.

2. The estimate as reduced in the Chief Engineer's office to Rs. 11,600 can stand. I have not yet got the Collector's valuation of the ground; this will be forwarded as soon as received, but I think that sanction to the estimate need not be delayed for that as the ground has already been acquired and paid for with other land taken up at Anantapur. I have added a lump sum of Rs. 165 on this account.

Approved and returned to the Public Works Department.

Fort St. George,
2nd December 1890.

(Signed) J. F. PRICE,
Chief Secretary.

From the Surgeon-General with the Government of Madras, dated Fort St. George, 1st December 1890, No. 817.

Endorsement in the Public Department, dated 6th December 1890.

From Colonel H. SMALLEY, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 24th December 1890, No. 2838.

With reference to your memorandum No. 4869 C., dated 25th November 1890, I have the honor to inform you that the value of the site of the District Surgeon's quarters at Anantapur is Rs. 170.

Note by the Chief Engineer, Public Works Department.

		RS.
* (a)	Cost of construction	11,435
(b)	Add 10 per cent. for establishment, &c.	1,143
(c)	Add for site	170
(d)	Total Capital cost ...	12,748
(e)	4 per cent. on (d) for interest...	509·92
(f)	3 per cent. on (a) for repairs ...	343·05
(g)	10 per cent. on (f) for establishment, &c.	34·30
	Rent per annum ...	887·27
	Rent per mensem ...	74

The estimate, amounting to Rs. 11,435, for constructing a residence for the District Surgeon, Anantapur, is recommended for the sanction of Government.

2. The value of the site, which is Government property, has been fixed at Rs. 170 and the rent calculated according to Code rules will amount to about Rs. 74* per mensem. The pay of the District Surgeon being Rs. 950 per mensem, the rent will be within 8 per cent. of that amount, and the estimate may therefore be sanctioned by Government.

6th January 1891.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Chief Engineer, P.W.D.

Order—dated 6th January 1891, No. 48 W., Public Works.

The estimate, amounting to Rs. 11,435, for constructing a residence for the District Surgeon, Anantapur, is sanctioned.

2. A sum of Rs. 4,000 has been allotted for the work during the current official year, and the balance of the estimate will be provided in the Provincial budget for 1891-92.

3. This sanction has been registered as Provincial No. 84 W. of 1890-91, and classified as Civil Buildings, Original Works.

Read—the following papers :—

From the Superintending Engineer, III Circle, dated 13th June 1894, No. 709.

From Surgeon-Major-General W. F. deFABECK, M.D., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Ootacamund, 12th May 1894, No. O. 71.

I have the honour to bring to the notice of Government the unsuitable condition of the District Surgeon's quarters at Anantapur.

2. In October 1892 while the house was under construction Surgeon-Major Sanjana, who was then Acting District Surgeon, represented to me that the accommodation provided was quite inadequate to the wants of an officer of the position of a District Surgeon, as there were no proper bath rooms, no office room, no accommodation for servants, &c., and suggested that upstair rooms should be built as they were essentially necessary in a hot place like Anantapur.

3. This letter was referred to the Superintending Engineer of the Circle, who replied in May 1893 that the quarters were built according to the design approved in G.O., No. 48 W., of 6th January 1891, and as the building was not designed to have an upper storey the additions suggested by the District Surgeon could not be made. He agreed with the District Surgeon that an office room was wanted, and this he thought might be added as a wing with an entrance from the end of the first verandah if Government were to sanction the accommodation.

4. On receipt of this letter I called upon him to furnish me with an approximate estimate of the cost of adding the room and with a rough sketch of the same to enable me to address Government on the subject; this I have not received up to date.

5. In the meantime Surgeon-Major C. Adams, who was sent to act as District Surgeon at Anantapur, addressed this office in January 1894, stating that the house was in an unsuitable and unsafe condition and some improvements in and around the building were absolutely necessary to make it habitable by a European. According to his letter, water collects all around the house during the rains, verandahs are so low that an ordinary sized person has to stoop on entering the bungalow, the space on the ground floor is very limited, there being practically only three small rooms, and he therefore is of opinion that an upstair room with a bath room on either side will only afford the merest necessary sleeping accommodation in the hot weather months. He further states that there is no compound wall and consequently the place in a manner invites thieves who are very numerous there and that animals frequently come and rest in the verandah at nights.

6. The Superintending Engineer to whom this letter was referred states that, owing to the design and state of the present building, it will be difficult to carry out Surgeon-Major Adams' suggestions and remarks that "on the whole the question to be placed before Government would seem whether it would not be desirable to give the Medical officer quarters on the standard plan of a Sub-Collector; in this case the

READ—the following papers :—

From Colonel H. SMALLEY, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 26th September 1890, No. 1887.

As called for in G.O., No. 2249 W., dated 18th August 1890, I have the honor to submit an estimate, amounting to Rs. 12,600, for constructing District Surgeon's residence at Anantapur in lieu of the estimate, amounting to Rs. 19,420, returned with Government Order quoted above.

2. The estimate now submitted cannot be reduced and provides the minimum of accommodation that an officer of the rank of Surgeon-Major (as the District Surgeon would probably be) could put up with as a married man.

3. The site has been acquired and work can be begun at once on sanction of the estimate, the funds being transferred from altering Apothecary's quarters at Anantapur into District Surgeon's quarters, as that estimate would be cancelled by the present estimate and the Apothecary's quarters would be left as they are.

From W. F. DEFABECK, Esq., M.D., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, Public Department, dated Fort St. George, 20th November 1890, No. 803.

In continuation of my letter No. 767, dated the 29th October 1890, I have the honor to return, duly approved and countersigned, the plans and estimates forwarded with your endorsement, dated the 17th idem.

2. A copy of my letter to the Superintending Engineer, III Circle, and of his reply are herewith enclosed for the information of Government.

ENCLOSURES.

From W. F. DEFABECK, Esq., M.D., Surgeon-General with the Government of Madras, to the Superintending Engineer, III Circle, dated Fort St. George, 29th October 1890, No. 6700.

I have the honor to enclose the accompanying papers with plan and estimate for constructing District Surgeon's quarters at Anantapur, referred to me for approval and countersignature by Government.

2. I am of opinion that the second estimate of Rs. 11,435 meets the case sufficiently, leaving out the extra bath-rooms at rear of the building, but I consider that the dressing-rooms at the sides should be separated from the bath-rooms by means of pucca walls, and doors be provided

District Surgeon's Residence at Anantapur

The Superintending Engineer, III Circle, directed to arrange to remedy the structural defects brought to notice by the District Surgeon, to submit a plan and estimate of the cost of certain additions to the —, and to report their effect on the rental.

Minute by the Honorable Mr. Bliss C.I.E.
dated 21st June 1894.

The defects mentioned in the District Surgeon's last letter should certainly be made good at once. As to the sufficiency of the accommodation I think it should suffice to add to one of the wings a room about 16' × 20' with surrounding verandah to serve as office room. In fact if another bath room were formed in the back verandah of this additional room it would serve as a bed room at option. This might be done.

To

The Honorable the Chief Secy to Govt
Public Department

Sir,

I have the honor to bring to the notice of Government the unsuitable condition of the District Surgeon's quarters at Anantapur.

2. In October 1892 while the house was under construction Surgeon Maj: Sanjana who was then acting District Surgeon represented to me that the accommodation provided was quite inadequate to the wants of an Officer of the position of a District Surgeon, as there were no proper bath rooms, no Office room, no accommodation for Servants &c. and suggested that upstair rooms should be built as they were essentially[x] necessary

x Rubbish. This Officer is not even an European. Its pleasant no doubt to have upstairs rooms but its not at all necessary

necessary in a hot place like Anantapoor.

3. This letter was referred to the Superintending Engineer of the Circle who replied in May 1893 that the quarters were built according to the design approved in G.O. No: 48 W of 6th January 1891, and as the building was not designed to have an upper storey the additions suggested by the District Surgeon could not be made. He agreed with the District Surgeon that an Office room was wanted and this he thought might be added as a wing with an entrance from the end of the first Verandah if Government were to sanction the accommodation.

4. On receipt of this letter I called upon him to furnish me with an approximate estimate of the cost of adding the room and with a rough sketch of the same to enable me to address Government on the subject - this I have not received up to date.

5. In the meantime Surg: Maj: C. Adams

C. Adams who was sent to act as District Surgeon at Anantapur addressed this Office in January/94 stating that the house was in an unsuitable and unsafe Condition and some improvement in and around the building were absolutely necessary to make it habitable by a European. According to his letter, water collects all around the house during the rains, Verandahs are so low that an ordinary sized person has to stoop on entering the bungalow, the space on the ground floor is very limited, there being practically only three small rooms and he therefore is of opinion that an upstair room with a bath room on either side will only afford the merest necessary sleeping accommodation in the hot weather months. He further states that there is no compound wall and consequently the place in a manner invites thieves, who are very numerous there and that animals frequently come and rest in the Verandah at nights.

The

The Superintending Engineer to whom this letter was referred states that owing to the design and state of the present building, it will be difficult to carry out Surgeon Major Adams' suggestions and remarks that "on the whole the question to be placed before Government would seem whether it would not be desirable to give the Medical Officer quarters on the standard plan of a Sub Collector; in this case the present quarters would have to be turned to other account. The inconvenience of there being no Government Circuit house for touring officials, or even an ordinary Traveller's Bungalow at Anantapur is one much felt probably. The Traveller's bungalow exists, but is always put to use as a residence. Sanction of a new Medical quarters would set it free for its legitimate use."

7. Surgeon Major Hakim who has since been posted to

Anantapur

Anantapur now complained of the inadequate accommodation provided for the District Surgeon. I have myself seen the building and consider that it is not suitable for occupation by a distinct Medical Officer and affords inadequate accommodation for a married man and family.

8. I understand that the Collector the Police Superintendent, the District Forest Officer and even the Sub Divisional Officer of the P. W. Deptt have upstair rooms and it is only reasonable to suppose that the District Surgeon, who is charged with a rent of Rs 75 which is more than what is paid by any of the above Officers the Collector excepted should likewise be provided with a suitable house.

9. Under these circumstances I strongly recommend that orders may be issued for the construction of a new house for the District Surgeon, Anantapur

on the standard plan for a
Sub Collector and the present
building utilized as suggested
