READ—the following papers:—

From W. J. H. LE FANU, Esq., Collector of Gódvári, to the Secretary to Government, Public Works Department, dated Cocanada, 27th April 1894, Ref. No. 467-Acc.

In submitting an estimate, duly countersigned, for Rs. 2,700 on account of repairs to be executed to the Cocanada Sea Customs godowns for sanction, I have the honour to state that they were repaired from Public Works Department funds in January 1893 at a cost of Rs. 570. As soon as the rainy season had set in, it was found that the work was not satisfactorily done as the godowns leaked everywhere, causing damage to the valuable articles stored therein.

2. In November last there were unusually heavy rains in this district and it was then found necessary to store all goods in the godowns of the Steamer Agents as a temporary measure till the rains ceased.

3. The repairs can no longer be postponed as the godowns are in a hopelessly bad condition. The Superintending Engineer, I Circle, has, in view of the urgency of the work and the approaching rainy season, requested the Executive Engineer, Gódvári Eastern division, to put the work in hand at once in anticipation of the sanction of the Government.

Resolution—dated 30th May 1894, Mis. No. 2354.

The estimate for the repair of the Cocanada Customs godowns, amounting to Rs. 2,700, is returned to Government for sanction for the provision of funds and for execution in the Public Works Department.

2. There are no funds available for the work under Customs Petty Construction and Repairs.

3. The Collector should have addressed the Board and not Government in this matter. Had he done so, delay and unnecessary correspondence would have been avoided.
