Resolution—dated 12th May 1894, No. 187.

The abstract of the programme of famine relief works for 1894-95 received from the Collector of Gódávari will be submitted for the information of Government.

2. The programme relates to the upland and non-deltaic portion of the district and provides for the construction of nine new irrigation works at a cost of 1·14 lakhs, and for repairs to existing works at 2·62 lakhs; the construction of 664 miles of new roads at 14·24 lakhs and repairs to existing roads 1·31 lakhs; works intended to improve the supply of drinking water 1·29 lakhs and other miscellaneous works ·62 lakh. The ryots are said not to be anxious to avail themselves of the advantages of State loans for land improvements and thus only a nominal sum of Rs. 5,000 for the whole district has been provided for works to be executed by the aid of such loans.

3. The total provision made amounts to Rs. 21,28,243 and is estimated to be sufficient to provide employment for 31 per cent. of the total population. The provision made is adequate in all taluks except Yernagúdem, where it would suffice for only 6 per cent. of the population. This should be amplified in future programmes. A list of additional works is given at the foot of statement A, the cost of which is estimated roughly at 14·7 lakhs inclusive of 9 lakhs, the approximate cost of Anumulalanka project channel referred to by the Collector.

4. Estimates are stated to be ready for works costing Rs. 2,01,417, or only 9 per cent. of the aggregate provision. The explanations promised in paragraph 6 of the Collector's letter are awaited.

5. The following discrepancies and omissions are noticed in the statements submitted by the Collector :—

(1) The repair of Ava tank in Yernagúdem for which a provision of Rs. 5,000 has been made in statements A and C has been omitted in statement B.

(2) The provision of Rs. 30,000 for breaking and stacking metal on a gravelled road in Yellavaram division is shown as a new work in form C.

(3) The lengths of the new roads in the Rajahmundry taluk and of the road work from Peddada to Simson's lock in the Cocanada division have not been entered in statement A. The Collector should supply the omissions.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

**General.**
**Account.**

READ—the following paper:—

From the Executive Engineer, Nellore Division, to the Superintending Engineer, II Circle, dated 26th February 1894, No. 507.

In continuation of my No. 492, dated 21st February 1894, I have the honour to state that as regards loss on "General charges" of workshop manufacture, I think the amount outstanding under the head to date of closing the shops should be readjusted to debit of "Establishment," as there seems to me some mistake in adding "Establishment" to "General charges" in these shops whilst it is not the case in Bezwada Workshops—see your No. 78 N.L, dated 29th April 1893.

2. All the workshop establishment has been charged to "Provincial" and in consideration of this charge Government have decided in G.O., No. 2892 W., dated 29th October 1891, that no centage need be charged to works carried out under the head, whilst they have ordered 20 per cent. to be charged to Irrigation Works and 25 per cent. to other than "Irrigation and Provincial." No exception has, however, been allowed for general establishment for works carried out by workshops like the items of land compensation, &c., referred to in paragraph 131, chapter XV, volume I, India Code, the result being that 23 per cent. for establishment is again calculated in accounts on workshop work in addition to the workshop centage authorized by Government in the Government Order quoted above.

3. Apart from this fact a third centage for establishment has been proposed in the shape of increase of percentage for "General charges" in paragraphs 68 and 69 of the notes of inspection communicated with the G.O., dated 23rd September 1892, No. 2649 W., and this has exceeded the limit fixed by Government in G.O., dated 29th October 1891, No. 2892 W., as 10 per cent. has been charged to Provincial works, 53 to Irrigation works, and 58 to works other than Irrigation and Provincial.

4. There does not seem to be any reason why establishment should be included in "General charges" in Nellore shops, whilst it is eliminated in Bezwada and Dowlaishweram shops.

5. I trust that you will agree with me that the system should be uniform, in which case I request that you will move Government to authorize the unadjusted balance of establishment erroneously included under "General charges" of "Workshop manufacture" being readjusted to debit of Provincial establishment in the accounts of March 1894.

6. The unadjusted balance under "General charges" to end of January 1894 stands at Rs. 692.

No. 151 N.L.

Forwarded to the Chief Engineer, Public Works Department, for favour of obtaining the sanction of Government for the loss on general charges of workshop manufacture being readjusted to the debit of Provincial establishment.

2. The abolition of the shops at Nellore has been sanctioned in G.O., No. 777 W., dated 19th March 1894, and they will be finally closed from the 1st June 1894 as reported in this office No. 122 N.L., dated 19th March 1894.

NELLORE, 31st May 1894. (Signed) W. L. C. BADDELEY, Major, R.E., Superintending Engineer, II Circle.

---

Office-note from the Examiner of Public Works Accounts, dated 25th June 1894, No. 2578 D/A.

Charges aggregating Rs. 1,439-12-10 for regular workshop establishment included in salary bills have been debited during the year 1893-94 to general charges, and as only Rs. 898-4-1 have been worked off by debit to jobs, leaving a sum of Rs. 541-8-9 to be cleared at end of March 1894, it is evident that the debit of 10 per cent. only to jobs for general charges was insufficient.

2. There would be no objection to clearing off this outstanding of Rs. 541-8-9 by debit to Provincial establishment, since, as a matter of fact, the establishment is provided for as such in the Provincial Civil Works budgets.

3. The same principle would apply to any outstandings on account of general charges on the date the shops close.

## PROCEEDINGS OF THE BOARD OF REVENUE
### (REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from W. J. H. LE FANU, Esq., Collector of the Gódávari District, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated Cocanada, 9th April 1894, Dis. No. 1216-Ver. :—

I have the honour to enclose statements of famine relief works for 1894–95, in the forms A, B and C prescribed in Board's Proceedings, No. 411, dated 7th June 1892, and to report as follows.

2. The statements have been prepared in accordance with the general rules and special instructions issued on the subject.

3. The Bhadrachalam boat canal and Anumulalanka project have been removed from the list of available works, and the latter is included in the list of additional works at foot of the statement A (*vide* Board's Proceedings, Mis. No. 4667, dated 7th August 1893).

4. No provision has been made under forest fencing works (*vide* Board's Proceedings, No. 4, dated 9th January 1893).

5. The works are likely to cost Rs. 21,28,243 in all, affording employment for three months for 283,759 persons, *i.e.*, for 31·25 per cent. of the population according to the census of 1891.

6. Detailed estimates are ready for nearly 9·5 per cent. of the aggregate provision for the district. None are ready in Peddápur, Pittapur, Polavaram, Yellavaram and Chodavaram. Explanation has been called for and will be submitted on receipt.

7. Better provision for breaking metal and stacking gravel will be made in future statements.

8. A nominal provision of Rs. 5,000 has been made under the Land Improvement Loans Act for the whole district, as the people are not anxious to avail themselves of the advantages of State loans.
