Suppl. Quarters by adding a room 16' x 12'

The accommodation propos-

on the area allowed for Police

4 feet wide & a court yard
with an enclosure for bathing
purposes similar to the stand-

Under a recent

Sir,

With reference to your No 2733 dated 24th September/93 and previous correspondence, I have the honor to forward an estimate for Rs 1100/- to provide for fencing in the Government land on which your residence stands and to request that you may obtain the sanction of Government.

2. It appears to me that this fence is required to enclose the large part long ago appropriated by Sir Thomas Munro and the land being much more extensive than would have been acquired for the new building the cost should be a general charge.

SIR,

In forwarding copy of letter no
1738 dated 10th October 1893 from the Superintend-
ing Engineer and the estimate forwarded there-
with to the amount of Rs 1100 for fencing the
Compound of the Collector's bungalow here, I
have the honor to request that you will be good
enough to move Government to accord
Sanction for the same.

After all the correspondence that has
occurred in connection with this Bungalow, it is
with considerable hesitation that I ask for more
money for a fence. The Bungalow however is a
large and costly building and it is only appro-
priate that the extensive Compound should always
remain attached to it. But as it is, it is a regular
grazing ground, two of my peons being engaged
almost

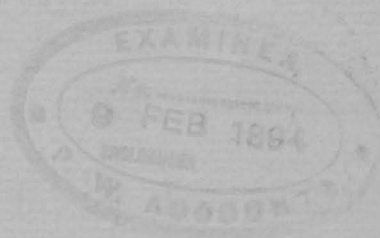

Almost always in driving away the village cattle
The trees also most of them planted by Sir Thomas
- Munro - I am informed - are dying out. I am sure
Collectors will do all they can to plant more trees
and otherwise embellish the Compound, if properly
enclosed.

On a reference from the Superintending
Engineer, whether it is necessary to enclose all
the ground round the Collector's residence Mr. Nicholson
before leaving the district replied that "he did
not think that the bungalow garden should be
fenced off from the rest of the Compound -
unless for additional protection, that the Com-
pound should always remain in its full -
extent, as the direct upportenance of the
bungalow which being a handsome and costly
structure required a fitting Compound solely
devoted to it." I entirely agree with him. The
whole Compound for which the present estimate
has been prepared requires fencing. For reasons
given by the Superintending Engineer, I request
that this additional cost may not be added,
to the Capital account of the Collector's residence.
I have the honor to be

Sir
Your most obedient Servant
