6. The approximate cost of item No. 1 under II road works (a) in the Kandukur taluk and of item 3 under item II (b) "new roads" in Rapur taluk are erroneously entered in statement A as Rs. 2,500 and Rs. 10,000 instead of as Rs. 25,000 and Rs. 1,00,000 respectively. Similarly in form C the entry of Rs. 8,18,440 in column 27 against the total for the Nellore taluk is a mistake for Rs. 8,48,440. The Collector's office copies should be corrected accordingly.

7. The Collector's statements show that detailed estimates were ready for all wells provided in the programme to be carried out with the aid of State loans. The entries are obviously incorrect, but were probably made with reference to paragraph 5 of Board's Proceedings, No. 330, dated 7th August 1893. What was remarked in that Proceedings was however only that no estimates are required for such works; the Collector should therefore make no entries in column 6 of statement A, or column 29 of statement C, in the case of such works in future years.

(True Copy and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Secretary to Government, Revenue Department,
" Chief Engineer for Irrigation with a list in MS.
Copy to the Collector of Nellore.

REVENUE DEPARTMENT.

1894.

Board of Revenue

(Revenue Settlement, Land Records
and Agriculture),

MADRAS.

Printed June 19th.

Proceedings, 2nd June 1894, No. 223.

Famine relief works programme for 1894-95,
Nellore.—Submitting, for the information of Gov-
ernment, an abstract of —.

21. Kallatambi street
Triplicane. 3rd July 1894

To. The Secretary to the Government of Madras
Public Works Department.

Sir. I beg to submit for reference

the Proceedings of Government no 797 of 20th
March and Reply no 879 of 2nd July from the
Consulting Architect.

The first evening party held in
March was necessarily limited, for want of
time to fit up the park for the occasion, and
as it was deemed prudent to issue invitations
to larger number of families after the return
of Government from the hills.

It is desirable to keep up the
evening parties and to gradually improve
the appearance of this portion of the park, which
is opposite the Caste and Goshka hospital on
the east.

Subject to the condition laid down
in the said G.O. no 797, I have the honor
to request that the Consulting Architect may
be requested to allow the use of the ground
for Evening parties which I shall invite
from time to time. I shall have removed
the fencing, planting, furniture, sheds &c

21. 12. 1897

provided for the evening parties, at any time
Government requires the ground for other pur-
poses, or surrender them to Government.

In token of the interest the
Rajah of Ramnad takes in the matter, he
has expressed his willingness to clean the
pond and build a few steps in the name
of his mother the Senior Rane Dowager.
I believe the tank so improved will be
useful in connection with any other pur-
pose the Government may have in view.

They remain

Sir

Your most obedient servant

A. San Kariak.

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from S. H. WYNNE, Esq., Acting Collector of Nellore, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated Nellore, 25th April 1894, No. 1384-Ver.:—

I have the honour to submit herewith the programme of famine relief works for 1894-95.

RESOLUTION—dated 2nd June 1894, No. 223.

The abstract of the programme of famine relief works for 1894-95 received from the Collector of Nellore will be submitted for the information of Government.

2. The programme provides for the construction of six new irrigation works to cost 1.35 lakhs of rupees and repairs to 245 existing works at an estimated cost of 5.81 lakhs; the construction of 1,232 miles of new roads to cost 27.65 lakhs and repairs to 129 existing roads at a cost of 10.43 lakhs; 518 works intended to improve the supply of drinking-water at an estimated cost of 2.73 lakhs and 465 other miscellaneous works to cost 1.59 lakhs including a sum of Rs. 26,750 only for works to be executed with the aid of State loans. The aggregate provision made amounts to Rs. 49,56,627 which is estimated to be sufficient to provide employment for a period of three months to 45.2 per cent. of the total population of the district. The detailed list A also contains a number of additional irrigation projects estimated to cost 8.9 lakhs, which may, if occasion arises, it is stated, be utilized for relief purposes. A list of these latter works will be forwarded to the Chief Engineer for Irrigation with a request that he will inform the Board whether the works could be made available for relief works within a reasonable time if necessary.

3. The Collector will report whether the District Board could maintain the additional 1,232 miles of new roads included in the programme, if they were constructed. He will also explain why no provision whatever is made for land improvements to be executed by the aid of loans in the Nellore and Gudur taluks.

In the cases noted on the margin the length of the new roads proposed has not been given in the Collector's detailed list A. The omission should be supplied in future returns. The length of road No. 6 in the Nellore taluk is probably 4 miles, as the distances given against the other works make up a total of only 84 miles against 88 miles entered by the Collector.

4. Excluding the loan works, for which no estimates are required, estimates are shown to be ready for works costing Rs. 13,29,407 or about 27 per cent. of the total provision.

5. It is observed that the "additional" works have been shown in the body of statement A. They should in future be entered separately at the end of the statement.
