PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following

Prop. in the Marine Dept. No: 275 d/7 July 1894
Note by the Chief Engineer, P.W.D. d/23/7/94

The estimate of Rs. 1460
for improvements to the
Post office at Beypore
in the Malabar District
is returned to the Super-
-intending Engineer
Circle for sanction and
execution.

2. Attention is drawn to
the Chief Engineer's note
recorded above.

3. The question of provi-
-ding funds for the
work, as shown below, will
be considered in the
Financial Department.

Worho

Note by the Chief Engineer, P.W.D.

The Soil being reported to be sandy, the undersigned considers that the foundations, instead of being built of laterite in chunam as provided for in the estimate, should be constructed of concrete

to ground level. ^{Moreover a saving of Rs 1280 will thus be effected.}
 2. The plan estimate has not been countersigned by the Supty Engr., although they appear to have passed through his office.

have passed through his office, it has however been countersigned by the Presidency Port Officer & approved in the Marine Dept. with the remark that the Signaller will be permitted to continue to occupy the dwelling portion of the office rent free, as his duties require him to reside near the flagstaff.

The amount of the estimate being within the sanctioning power of the S.E. the estimate may be returned to that office for sanction.

Current No. 5250
Letter No. 275
Dated 7th July 1894
From the Marine Dept

NOTE BY TECHNICAL SECTION.

Name of work. Improvements to the Post
Office at Beypore. Malabar District.
Amount of Estimate Rs 1460

The plan & estimate under review provide for extending the building on the western side by adding 2 more rooms, one as a store room & the other as a side room & for converting the temporary front verandah into a permanent one, also for constructing a permanent kitchen with covered way, as shown on plan.

The nature of the soil is stated to be sandy it is therefore submitted that the foundations be laid of concrete to ground level in lieu of labour in chumam.

The rates are fair.

The estimate has not been submitted by the Supy. Engr. IV Circle, though it appears to

been occupied by the Flag signaller since a flag-staff was erected at that port. No rent is paid. There appears to be no order of Government specially sanctioning the occupancy of a portion of the building in this manner, but presumably the Master Attendant, Madras, permitted the arrangement as from the nature of the signallers duties, it is desirable that he should be on the spot always.

2. The Office building was constructed at a cost of Rupees/1,186/ one thousand one hundred and eighty six, from Port Funds, vide G.O. Public Works, No. 3311, dated 3rd November 1865. The flagstaff is situated in the office compound. *In fact Recd*

3. House accommodation is difficult to obtain at Beypore as most if not all the dwelling houses there have been pulled down since the place was abandoned as a Railway Station and the line was diverted to Calicut via Feroke. I would therefore recommend the signaller being permitted to continue occupying the dwelling portion of the Port Office free of rent. It is not unusual to provide signallers with free quarters.

ORDER, dated 7th July 1894, No. 275.

The estimate is approved and will be transferred to the Public Works Department.

2. As the Signaller's duties require that he should reside near the flagstaff he will be permitted to continue to occupy the dwelling portion of the office free of rent.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following paper:-

From the Presidency Port Officer, Madras, dated
16th May 1894, No. 762/181 G.

I have the honour to forward, duly counter-
signed, for sanction of Government and allotment of funds,
the accompanying estimate of Rs. /1,460/ one thousand four
hundred and sixty for improvements to the Port Office build-
ings at Beypore. The amount approximately estimated in con-
nection with this work was Rs. /1,200/ one thousand and two
hundred, /vide G.O. Financial No. 1 dated 4th January 1894/
since then the Superintending Engineer was asked to make
provision also for a permanent cook-house, which the late
Ag. Presidency Port Officer considered necessary when he
last inspected the port as the cadjain and bamboo arrangement
now in use is unsafe. This accounts for the increase in the
amount of the Estimate.

From the same officer, dated 25th June 1894,

No. 762/234 G.

In reply to Marine Dept. Memorandum, No. 1030
dated 23rd May 1894, I have the honour to state that the
dwelling portion of the Port Office building at Beypore has
been
