*Adóni Taluk.*

Adóni Nallacheruva.—Being carried out this year by the agency of the Sanitary Engineer's Department.

I have the honour to submit the statements A, B and C relating to the programme of the famine relief works in this district for the year 1894-95.

2. The marginally-noted irrigation works included in the last year's list have been removed from this year's list for the reasons stated against them.

3. Provision has been made to the extent of Rs. 1,36,221 on account of irrigation works, of which works for Rupees 41,530 are ruined ones proposed to be restored.

4. Forest fencing has not been provided for in the budget for this district for 1894-95, and hence no provision is made in the programme for it.

ENCLOSURE.

RESOLUTION—dated 27th June 1894, No. 255.

The abstract of the programme of famine relief works for 1894-95 received from the Collector of Bellary will be submitted for the information of Government.

2. The programme provides for the construction of nine new irrigation works at a cost of 0.42 lakh of rupees and repairs to 53 existing works at 0.95 lakh; the construction of 244 miles of new roads to cost 3.41 lakhs and repairs to old roads to cost 18.61 lakhs; 41 works for the improvement of the drinking water-supply at a cost of 1.17 lakhs, and other miscellaneous works to cost 2.48 lakhs, the last item consisting mainly of land improvements to be executed with the aid of State loans, amounting to Rs. 2.39 lakhs. The total provision made for all works amounts to Rs. 27,04,015 and is said to be sufficient to provide employment during a period of three months for over 39 per cent. of the population in the district. Sufficient provision has been made in all taluks. It is, however, observed from statement B that out of 133 irrigation works out of order provision has been made for the repair of only 53, or 60 per cent. and that the provision for land improvement works in several taluks, especially Hóspet and Kúdligi, is trifling.

3. Estimates are reported to be ready for nearly all the works in the programme, excluding land improvement works for which no estimates are required.

4. The marginally-noted additional works, which were included in the Collector's statements for 1893-94 though omitted by the Board as being in a preliminary state of investigation, do not appear in the Collector's statements for 1894-95. The Chief Engineer is requested to inform the Board what progress has been made in the correspondence regarding these works.

5. The entry in column 18 of form C against the total of the Kúdligi taluk should be Rs. 2,81,099 and not Rs. 2,81,079. The total in column 26 should accordingly be Rs. 3,13,600 and not Rs. 3,13,580. The necessary corrections should be made in the Collector's office copy.

4 BOARD OF REVENUE (REV. SETT., L. RDS. AND AGRI.), 27TH JUNE 1894, No. 255.

RESOLUTION—dated 27th June 1894, No. 255.

The abstract of the programme of famine relief works for 1894-95 received from the Collector of Bellary will be submitted for the information of Government.

2. The programme provides for the construction of nine new irrigation works at a cost of 0.42 lakh of rupees and repairs to 53 existing works at 0.95 lakh; the construction of 244 miles of new roads to cost 3.41 lakhs and repairs to old roads to cost 1.17 lakhs, and other miscellaneous works to cost 2.48 lakhs, the last item consisting mainly of land improvements to be executed with the aid of State loans, amounting to Rs. 2.39 lakhs. The total provision made for all works amounts to Rs. 27,04,015 and is said to be sufficient to provide employment during a period of three months for over 39 per cent. of the population in the district. Sufficient provision has been made in all taluks. It is, however, observed from statement B that out of 133 irrigation works out of order provision has been made for the repair of only 53, or 60 per cent. and that the provision for land improvement works in several taluks, especially Hóspet and Kúdligi, is trifling.

3. Estimates are reported to be ready for nearly all the works in the programme, excluding land improvement works for which no estimates are required.

4. The marginally-noted additional works, which were included in the Collector's statements for 1893-94 though omitted by the Board as being in a preliminary state of investigation, do not appear in the Collector's statements for 1894-95. The Chief Engineer is requested to inform the Board what progress has been made in the correspondence regarding these works.

5. The entry in column 18 of form C against the total of the Kúdligi taluk should be Rs. 2,81,099 and not Rs. 2,81,079. The total in column 26 should accordingly be Rs. 3,13,600 and not Rs. 3,13,580. The necessary corrections should be made in the Collector's office copy.
