Statement from the President, District Board, South Arcot, dated 5th June 1894, No. 135-Ind., showing the amounts of estimates for local fund works scrutinized by the Public Works Department for the quarter ending 31st March 1894 :—

| Public Works Circle. | District.      | Item number. | Name of work.                                      | Amount of estimate or items chargeable. | Remarks.                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------|----------------|--------------|----------------------------------------------------|-----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| V.                   | South Arcot .. | 7            | Gravelling the road from Brahmadesam to Kallianur. | Rs. 10,315                              | An estimate of Rs. 8,940 for this work was sanctioned in G.O., dated 11th January 1893, No. 24. The estimate under verification is therefore a revised estimate falling under 1 (b) of the rules. As there is no alteration of design, no charge for scrutiny is admissible. There is alteration only in rates and the Superintending Engineer states in his letter, No. 87 M., dated 13th March 1894, that only arithmetical calculation has been checked. |

From the President, District Board, Tanjore, to the Chief Secretary to Government, dated Vallam, 5th June 1894, Dis. No. 236.

With reference to G.O., dated 22nd May 1894, No. 910 L., Mis., forwarding for verification and report a statement showing the amounts of estimates for local fund works scrutinized by the Public Works Department for the quarter ending 31st March 1894, I have the honour to report as follows :—

(2) *Item No. 6—Constructing two additional Rooms to the Tiruválúr Board High School.*—The amount of the estimate for this work is correct as entered and the claim of the Public Works Department for the usual scrutiny charges should be allowed as the estimate was forwarded to the Superintending Engineer by me at the instance of the President, Taluk Board, and not by the Director of Public Instruction.

(3) *Item No. 8—Puducheri Village Road—Constructing Tunnels.*—The amount of the estimate is Rs. 6,700 and not Rs. 6,760 as entered in the statement. The usual scrutiny charges for Rs. 6,700 may be allowed.

From the President, District Board, Tinnevely, dated 13th June 1894, No. 36.

ABSTRACT.—Stating that the statement showing the amount of estimates for the local fund works scrutinized by the Public Works Department for the quarter ending 31st March 1894 is correct.

From the President, District Board, Anantapur, dated 23rd June 1894, No. 34.

ABSTRACT.—Returning the statement received with G.O., dated 22nd May 1894, No. 910 L., duly verified.

Endorsement, in the Public Works Department, dated 28th June 1894, No. 2338-C.

Read—the following papers :—

From J. THOMSON, Esq., C.S., President, District Board, Chingleput, to the Secretary to Government, Public Works Department, dated Saidapet, 6th June 1894, Ref. on No. 1390 L.

With reference to the statement (copy enclosed) that accompanied G.O., dated 22nd ultimo, No. 910 L., Mis., I have the honour to request that you will be good enough to furnish me with details regarding the restoration of the Alattúr road at cost of Rs. 12,580, as no estimate was submitted by this office for scrutiny by the Public Works Department.

In October 1892, the Deputy Commissioner of Salt and Abkari Revenue, Central Division, brought to notice the bad condition of the aforesaid road, and for the portion of two miles of it in this district the District Board Engineer submitted an estimate for Rs. 4,000, which was, however, not passed by the board for want of funds. The estimate under reference was submitted probably by the Salt Department.

From J. C. LARMINIE, Esq., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepāk, 20th June 1894, No. 200-W.

With reference to your endorsement, No. 2192-C, dated 13th June 1894, returned herewith, I have the honour to state that the estimate for restoring Alattúr road was prepared by the Public Works Department on the requisition of the Board of Revenue to the Superintending Engineer, V Circle, conveyed in their Proceedings, No. 4285, dated 15th November 1892. The estimate was forwarded to the Board with this office No. 56 M., dated 14th February 1894.

Endorsement—dated 28th June 1894, No. 2338-C, Public Works.

Transferred to the Local and Municipal Department, in continuation of this department endorsement, No. 1851-C., dated 7th May 1894.

2. In the circumstances stated by the Superintending Engineer, no charge should be made to the district board for the preparation of the estimate by the Public Works Department.

(Signed) J. PENNYCUICK, Col., R.E.,  
Secretary to Government, P.W.D.

From W. J. H. LE FANU, Esq., President, District Board, Górávari, to the Chief Secretary to Government, dated 27th June 1894, No. 1193-D.B.

In reply to G.O., dated 22nd May 1894, No. 910 L., Mis., I have the honour to state that the statement therewith received has been verified and found to be correct. I have, however, to observe with regard to Item 3, that the estimate as originally sent to the Superintending Engineer, I Circle, for scrutiny, amounted to only Rs. 38,000. It was afterwards revised twice with reference to the remarks made by the Superintending Engineer and by the Chief Engineer, respectively, and the estimate as finally revised came up to Rs. 41,200.

ORDER—dated 23rd July 1894, No. 1353 L., Local and Municipal.

The statement received from the Public Works Department will be forwarded to the Accountant-General with the following remarks and with the request that he will make the necessary adjustments in the accounts in communication with the Examiner of Public Works Accounts :—

(1) A contribution for examining the estimate for constructing the road from Karapa to Narasapurpet in the Górávari district having been already paid with reference to clause (1) of G.O., dated 14th November 1893, No. 2544 L., the Public Works Department will be requested to state the circumstances under which a fresh charge is now demanded for the scrutiny of the revised estimate, which was prepared with reference to the remarks of the Superintending Engineer and the Chief Engineer.

(2) With reference to paragraph 2 of the endorsement of the Public Works Department, dated 28th June 1894, No. 2338-C., read above, no charge should be made for scrutinizing the estimate for restoring the Alattúr road, in the Chingleput district.

(3) In the circumstances stated by the President of the South Arcot District Board—who should have submitted a letter on the subject instead of a statement—the contribution for examining the revised estimate for gravelling the road from Brahmadesam to Kallianur should be remitted with reference to No. I (b) of the rules sanctioned in G.O., dated 29th April 1889, No. 1137 W., recorded in G.O., dated 15th June 1889, No. 1300 L.

(4) With reference to paragraph 2 of the endorsement of the Public Works Department, dated 7th May 1894, No. 1852-C., it is observed that, as the estimate for constructing two additional rooms to the board high school at Tiruválúr, in the Tanjore district, was scrutinized at the request of the President of the Negapatam Taluk Board, the charge for its scrutiny is admissible, but the contribution for scrutinizing the estimate for constructing tunnels on the Puducheri village road, in the same district, should be levied on Rs. 6,700 and not on Rs. 6,760.
