Read—the following paper :—

From W. R. BROOKE, Esq., Director-General of Telegraphs, to the Secretary to the Government of Madras, Public Works Department, dated Simla, 15th August 1894, No. 5080.

With reference to your letter No. 2677 W., dated the 20th of October 1893, I have the honour to report as follows on the proposals to open the telegraph offices which are referred to in paragraph 4 of the Proceedings of the Board of Revenue sent therewith.

2. I attach a list, marked A, showing the offices which I consider may be opened experimentally with a fair prospect of success. I have given orders that these offices shall be opened this year if possible.

3. I also attach a list, marked B, of offices which I consider may be opened experimentally without a guarantee but which cannot be opened this year for want of funds.

4. The attached list C shows certain other places at which, so far as I can judge, telegraph offices are not likely to prove a success financially, and I have entered in this list the amount of guarantee which I consider is necessary in each case. If, however, the Government of Madras view any of these extensions in a more favorable light than I do with my more limited means of arriving at a correct conclusion, I am willing to open such offices experimentally as soon as funds are available.

5. The two offices noted in the margin not only do not promise well financially but, at these two places, the agency of the Post office is not available. Of them it may therefore be said that offices cannot be opened at present without an outlay in buildings and establishment beyond my budget limits.

6. As regards Kistnapatam and Dhárápuram, orders to open a telegraph office at the former were issued in February last. At the latter place also an office should be opened shortly, as the necessary orders have been issued.
