

No 216.

Quartermaster's office
Camp Ingepadi
21st July 1894

From.

A. B. Folders,
Quartermaster D. V. W.

To
The Quartermaster,
Cannanore.

Sir,

With reference to your
endorsement No 758 B, dated 9th
July 94, on Executive Engineer's letter
No 1278, dated 28th June 94, here with
returned, I beg to report that
being a bachelor my kit is of
such a nature that I always carry
it about with me without in-
convenience, having a cart and
pair of bullocks and a pony for my
camp equipage & kept nothing
in the building at any time.

But owing to the pressure of
work in October consequent on the
proposed visit to Wynad of

Transferred to the Educational Department
for consideration, with advertisement to G.O.
No. 563 W dated 2nd March 1894.

From the Director of Public Instruction,
Madras, dated 24th July 1894, No. 6880.

In returning herewith the
Endorsement of Government, No. 1182, EdC,
dated 13th ultimo, I have the honour to
submit copy of the letter of the Dy. Secy.
Principal, College of Engineering, Madras,
No. 207 C, dated 7th instant, and to
suggest that, under the circumstances
stated therein, such of the Students
of the College as may be desirous of
learning the process may be permitted
to attend the drawing office of the
Public Works Department for a short
course of instruction in free-hand.

Order: 14th August 1894, No. 605.

The Director's letter with which
the Government concurs will be
communicated to the Public Works
Department.

(True Extract)

A.D.G. Shelling, Capt R.S.

Under Secretary, P.W.D.

To the Public Works Department, Chief Secretary.

Director of Public Instruction

Copy of letter from the Dy.
Principal, College of Engineering, Madras,
dated 7th July 1894, No. 207 C, to
Director of Public Instruction, Madras.

With reference to your No. 59,
dated 20th June 1894 on papers herewith
returned I have the honour to state that
none of the instructions here have had
any practical experience in free-hand,
the process is however an easy one and
could be easily learnt if found necessary.
2. I am, however, of opinion that
it is hardly worth while to take up
the time of Students in the College
to learn a process which they may
or may not require to put into use
afterwards. It will also cost money,
which would be much better spent in
other directions. I doubt if any economy
would result by a draftsman learning
the process here rather than in the
drawing office of the Public Works
Department.
