PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read again G.O. dated 20th June 1894, No. 241.
READ the following papers:—

From the Presidency Port Officer, Madras,
d/ 3rd July 1894, No. 690 G.

With reference to para 1 of G.O., Marine, No. 241,
dated 20th June 1894, I have the honor to report
that upon further consideration of the matter, I
consider it would be preferable to have a Superintend-
-ent at Calingapatam who could devote his full
time and attention to the new light. He should be
appointed as a 3rd class Superintendent on Rs (50)
fifty with a charge allowance of Rs (20) twenty for
his first year of service, and if the working of the
light has been efficient during this year, he might
be made a 2nd class Superintendent on Rs (70) seventy
per mensem.

2. I think it advisable further that the person
selected should have some previous training in the
working of a similar light and therefore recommend
that he may be engaged from 1st December next
and sent to Bombay to do duty at the Lunk Rock
Light (with the consent of the Port Officer, Bombay).
During the period he is there, he should receive

pay Rs (50) fifty and a daily allowance of Rs (3) three which, I think, is not too much in view of the cost of living in Bombay. He should receive also a free second class fare to and from Bombay.

3. On his return from Bombay he might be deputed at once to Calingapatam to assist in the erection of the light which may be expected to be ready about March next.

4. A bungalow for the Superintendent will be necessary, the cost of which, I think, will exceed Rs 500/-. I beg that sanction of Government may be accorded to the preparation of an estimate by the Public Works Department and to the necessary action being taken by that Department for the building being ready for use as soon as possible before the light is in position.

5. A revised proposition statement is submitted herewith.

6. Sanction is also requested to the grant of a bonus (amount to be paid by the Port Office, Bombay) to the Principal Keeper of the Sunk Rock for instructing the new man.

7. Under the arrangements above proposed, the allowance of Rs (20) twenty drawn by the Port Conservator for looking after the Lighthouse may be discontinued from the date on which the Superintendent takes charge of the new Light.

* If he can be accommodated at the Sunk Rock in the Light house Rs (1) one per diem.

From the same officer d/ 3rd August 1894
No. $\frac{690}{292}$ G.

In reply to Marine Department Memorandum, No. 1402, dated 9th July 1894, I have the honor to report that the cost of deputation to Bombay &c will be as follows:-

Railway fare to and fro	Rs 50.
Batta on journey to and fro	" 12.
Ration for 1 month (Lodging and messing can be had at the Sunk Rock Light-house) at Rupees $1\frac{1}{2}$ per diem	" 45.

Bonus for instructing

Contingencies, boat-hire &c

Rupees 142

Say in round figures Rupees 150

2. A suitable man from the Gun Carriage Factory applied for, and was offered, the place, but is unwilling to accept it on terms other than those originally proposed by me, that is, pay Rupees (50) Fifty plus charge allowance Rupees (20) twenty, during the first year, to be converted into consolidated pay of Rs (70) seventy, per mensem, afterwards, with free quarters. I would recommend my original proposal being sanctioned on the understanding that the charge allowance will not be drawn until the man actually takes charge of the Light and that pay alone will be admitted till then.

3. The existing store room at Calingapatam being

too small for the requirements of the new Light,
I beg that the Public Works Department may be
asked to provide a larger store room in addition to
the quarters required to be constructed for the Superintendent
and two keepers.

Order of 20th August 1894, No. 335.

As it has been decided that Mr Ashpitel shall
report on the general question of establishments for
the lights on the coasts of the Presidency he will
be requested to furnish his opinion on the present
proposals.

G.O. d/10th August 1894
No. 318.

Enc 6371

2. The necessity for the payment of a "bonus
for instruction" is not apparent. The Government
of Bombay will be addressed.

3. The Public Works Department will be requested
to furnish plans and estimates for the Superintendent's
quarters and the store room requisite.

(True Extract)

A. D. G. Shelley Capt R.R.
Under Secretary, P. W. D.,
for Chief Secretary.
