Land irrigated by the
Ponnaiar in Mysore Territory
Requesting to be informed
of the extent of —

No 349
M.

From,

J. Harman, Esq.,

Superintending Engineer, IV Circle,

To,

The Chief Engineer,

Mysore.

this the Chief Engineer, P.W.D. Madras.

Sir,

I shall feel much obliged by your informing me how much land is irrigated by the Pennar in Mysore Territory. This river takes its rise in the Nandidroog and flows into and through the Salem District. It supplies the large Barur Tank in the latter District. My object is to ascertain the irrigating duty of this river. It must be a high one judging from the small discharges over the ancient t across it which supplies the Barur Tank.

2. The irrigating duty of catchment basins is a matter of considerable importance in drawing up irrigation projects and I am

Barur Tank. Data are being collected by the P.W. Dept of this Government as to the irrigating duty of catchment basins, and the information now asked for will facilitate the inquiry.

Letter

From the Chief Secretary
to Govt., Political Dept.
to the Resident in
Mysore.

Sir,

I am directed by
His Excellency the Govt.
in Council to request
that, with the permission
of the Mysore Govt.,
information may be
afforded as to the extent
of land irrigated by
the river Ponnian
in Mysore territory. This
river takes its rise
in the Wandidroog
and flows into the
Salem District where
it supplies the large
