

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—again the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 15th June 1894, Mis. No. 3613 :—

Read—programme of famine relief works for the year 1894-95 from the Collector of the Kistna District, dated 13th May 1894, No. 1735-Ver.

Resolution—dated 15th June 1894, Mis. No. 3613.

Statement C received from the Collector has not been correctly prepared and should be revised with reference to the instructions issued in Board's Proceedings, No. 502, dated 16th July 1892. The additional works shown at the end of statement A should not be included in calculating the numbers for whom employment can be given on available relief works, and should be excluded altogether from this statement.

In this statement also, it is not shown separately what numbers could be employed on land improvements to be executed by the aid of loans.

2. In statement B it is remarked that the number of tanks under the Revenue Department has not been reported by the Divisional officers, and that only those tanks for the repairs of which provision has been made, have been shown in the statement. This is erroneous. The number of irrigation works in and out of repair under the charge of the Revenue Department can be ascertained from the jamabandi statements of irrigation sources, and provision should be made for the repair of all sources out of order the repair of which is necessary or desirable. The programme should be revised accordingly and be resubmitted at a very early date.

Secretary.

To the Collector of the Kistna District.

READ—also letter from the Collector of the Kistna District, dated 27th June 1894, Ref. on C. No. 2722-Ver.

ABSTRACT.—Submitting a revised statement in form C of famine relief works for 1894-95.

READ—also statement B in connection with the famine relief works for 1894-95, dated 16th July 1894, No. 2520-Ver., from the Collector of the Kistna District.

RESOLUTION—dated 9th August 1894, No. 331.

The revised abstract of the programme of famine relief works for 1894-95 received from the Collector of Kistna will be submitted to Government.

2. The details of the works provided in the programme are noted below:—

Works.	Estimated cost in lakhs.
(1) Construction of 15 new irrigation works	8.50
(2) Repairs of 16 irrigation works	3.09
(3) Construction of 299 miles of road	9.18
(4) Repairs of 26 existing roads	14.37
(5) Miscellaneous works—	
(a) Construction and repair of drinking-water wells	0.08
(b) Water-supply scheme of Bezvada	2.00
(c) Construction of a drainage channel in Bezvada	1.00
(d) Levelling banks of canals in Bezvada	0.75
(e) Land improvement works	0.10
	39.07

3. (a) Out of the 11.59 lakhs provided for the construction and repair of irrigation works (items 1 and 2 above) nearly 7 lakhs relate to Professional agency works shown in the subjoined statement for which no detailed estimates are said to be ready:—

Taluks.	Works.	Estimated cost.
		RS.
Vinukonda ..	Dondapad tank scheme	67,574
	Ipur tank scheme	31,100
	Reconstruction of Nayakerla tank, Mellavagu	60,000
	Restoring the ruined tank called Barratamu of Gandiganamala	9,200
	Reconstruction of tanks at Kondayapalem, &c.	50,000
Palnad ..	Closing the breach and strengthening the bund of Silam Brahmanayudu tank	94,000
	Constructing a dam across the Pulleru at Konanki	5,000
	Do. dams to irrigate fields	20,000
	Jonnapadu tank scheme	25,600
	Mellavagu do.	2,00,000
Narasaraopet ..	Constructing an anicut across Dandivagu and Nanamma tank	3,850
	Reconstructing the tank at Nadendla to irrigate lands in 8 villages	10,000
	Do. do. Sembhuchiruvu at Elchur	10,000
	Do. do. to the west of Dronadula village	8,000
	Improving the irrigation tank at Santamagalur	8,000
Nuzvid ..	Constructing anicut across the Vogeru to irrigate lands of 30 villages	40,000
	Tanks affecting railways (repairs of)	50,000
	Total ..	6,92,324

The Chief Engineer for Irrigation will be requested to be so good as to inform the Board whether all these works may be treated as available for famine relief purposes.

(b) Similarly in regard to items 5 (b) and (c), the Collector should report in what state the projects are; unless they are in a forward state of preparation, they should not be included in the programme, but only shown as additional works—*vide* paragraph 5 (9) of Board's Proceedings, No. 411, dated 7th June 1892.

4. The total provision made amounts to 39.07 lakhs, and is estimated to be sufficient to provide employment for three months for 46 per cent. of the total population of the district. The provision is adequate in all taluks, except in the Government taluk of Sattenapalle and in the zemindari division of Vissannapeta. The Collector remarks that people in these tracts can migrate to parts where relief is extensive. It is, however, observed that in Sattenapalle, increased provision can be made under repair of irrigation works, as out of 12 major irrigation works and 4 minor works out of order in the taluk, the repair of only one minor irrigation work has been included in the Collector's programme. This should be borne in mind when the next programme is submitted.

5. Excluding the land improvement works for which no estimates are required, estimates are reported to be ready for works costing nearly 9 lakhs or 22.9 per cent. of the total provision. In Sattenapalle, however, out of a total provision of Rs. 1,87,550, estimate is shown to be ready for only one minor irrigation work costing Rs. 350.

6. (a) The entry of Rs. 1,99,950 in column 9 of statement C against the Palnad taluk is obviously an error. It should be Rs. 3,29,950 as noted on the margin. The necessary corrections have been carried out in the statement printed with these Proceedings.

(b) The entries in column 11 of the statement C differ in every case from those in the last column of statement B. Apparently the figures in the latter do not represent, as they ought to do, the sums provided in the programme. The Collector is requested to report what the figures represent.

(c) The total amount for which estimates are ready in the Narsaraopet and Nandigama taluks are entered in column 26 of the statement C as Rs. 1,18,180 and Rs. 3,38,310, while, according to the detailed list A, they appear to be, respectively, Rs. 91,740 and 4,38,810. The discrepancies should be explained. The district totals in columns 14, 16, 22 and 26 of statement C entered as Rs. 8,77,806, 11,02,100, 18,000 and 8,94,822 should be Rs. 9,17,806, 14,36,900, 3,93,520 and 8,93,822, respectively.

(d) The number of new road works provided in the Nandigama taluk is two and not four. The Collector is requested to see that the statements are carefully checked in his office before they are submitted to the Board in future.

REVENUE DEPARTMENT.

1894.

Board of Revenue

(Revenue Settlement, Land Records
and Agriculture),

MADRAS.

Printed August 24th.

Proceedings, 9th August 1894, No. 331.

Famine Relief Works.—Submitting to Government, with remarks, the revised abstract of the programme of — for 1894-95 received from the Collector of Kistna.

BOARD OF REVENUE (REV. SETT., L. RDS. AND AGRI.), 9TH AUGUST 1894, No. 331.

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—again the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 15th June 1894, Mis. No. 3613 :—

Read—programme of famine relief works for the year 1894-95 from the Collector of the Kistna District, dated 13th May 1894, No. 1735-Ver.

Resolution—dated 15th June 1894, Mis. No. 3613.

Statement C received from the Collector has not been correctly prepared and should be revised with reference to the instructions issued in Board's Proceedings, No. 502, dated 16th July 1892. The additional works shown at the end of statement A should not be included in calculating the numbers for whom employment can be given on available relief works, and should be excluded altogether from this statement.

In this statement also, it is not shown separately what numbers could be employed on land improvements to be executed by the aid of loans.

2. In statement B it is remarked that the number of tanks under the Revenue Department has not been reported by the Divisional officers, and that only those tanks for the repairs of which provision has been made, have been shown in the statement. This is erroneous. The number of irrigation works in and out of repair under the charge of the Revenue Department can be ascertained from the jamabandi statements of irrigation sources, and provision should be made for the repair of all sources out of order the repair of which is necessary or desirable. The programme should be revised accordingly and be resubmitted at a very early date.

READ—also letter from the Collector of the Kistna District, dated 27th June 1894, Ref. on C. No. 2722-Ver.

ABSTRACT.—Submitting a revised statement in form C of famine relief works for 1894-95.

READ—also statement B in connection with the famine relief works for 1894-95, dated 16th July 1894, No. 2520-Ver., from the Collector of the Kistna District.

RESOLUTION—dated 9th August 1894, No. 331.

The revised abstract of the programme of famine relief works for 1894-95 received from the Collector of Kistna will be submitted to Government.

2. The details of the works provided in the programme are noted below:—

Works.	Estimated cost in lakhs.
(1) Construction of 15 new irrigation works	8.50
(2) Repairs of 16 irrigation works	3.09
(3) Construction of 299 miles of road	9.18
(4) Repairs of 26 existing roads	14.37
(5) Miscellaneous works—	
(a) Construction and repair of drinking-water wells	0.08
(b) Water-supply scheme of Bezvada	2.00
(c) Construction of a drainage channel in Bezvada	1.00
(d) Levelling banks of canals in Bezvada	0.75
(e) Land improvement works	0.10
	39.07

3. (a) Out of the 11.59 lakhs provided for the construction and repair of irrigation works (items 1 and 2 above) nearly 7 lakhs relate to Professional agency works shown in the subjoined statement for which no detailed estimates are said to be ready:—

Taluks.	Works.	Estimated cost.
Vinukonda ..	Dondapad tank scheme	Rs. 67,574
	Ipur tank scheme	31,100
	Reconstruction of Nayakerla tank, Mellavagu	60,000
	Restoring the ruined tank called Burratumu of Gandiganamala	9,200
	Reconstruction of tanks at Kondayapalem, &c.	50,000
Palnad ..	Closing the breach and strengthening the bund of Silam Brahmanayudu tank	94,000
	Constructing a dam across the Pulleru at Konanki	5,000
	Do. dams to irrigate fields	20,000
	Jonnappadu tank scheme	25,600
	Mellavagu do.	2,00,000
Narasaraopet ..	Constructing an anicut across Dandivagu and Nanamma tank	3,850
	Reconstructing the tank at Nadendla to irrigate lands in 8 villages	10,000
	Do. do. Sembhuncheruvu at Elchur	10,000
	Do. do. to the west of Dronadula village	8,000
	Improving the irrigation tank at Santamagalur	8,000
Nuzvid ..	Constructing anicut across the Vogeru to irrigate lands of 30 villages	40,000
	Tanks affecting railways (repairs of)	50,000
	Total ..	6,92,324

The Chief Engineer for Irrigation will be requested to be so good as to inform the Board whether all these works may be treated as available for famine relief purposes.

(b) Similarly in regard to items 5 (b) and (c), the Collector should report in what state the projects are; unless they are in a forward state of preparation, they should not be included in the programme, but only shown as additional works—vide paragraph 5 (9) of Board's Proceedings, No. 411, dated 7th June 1892.

4. The total provision made amounts to 39.07 lakhs, and is estimated to be sufficient to provide employment for three months for 46 per cent. of the total population of the district. The provision is adequate in all taluks, except in the Government taluk of Sattenapalle and in the zemindari division of Vissannapeta. The Collector remarks that people in these tracts can migrate to parts where relief is extensive. It is, however, observed that in Sattenapalle, increased provision can be made under repair of irrigation works, as out of 12 major irrigation works and 4 minor works out of order in the taluk, the repair of only one minor irrigation work has been included in the Collector's programme. This should be borne in mind when the next programme is submitted.

5. Excluding the land improvement works for which no estimates are required, estimates are reported to be ready for works costing nearly 9 lakhs or 22.9 per cent. of the total provision. In Sattenapalle, however, out of a total provision of Rs. 1,87,550, estimate is shown to be ready for only one minor irrigation work costing Rs. 350.

6. (a) The entry of Rs. 1,99,950 in column 9 of statement C against the Palnad taluk is obviously an error. It should be

The total approximate cost of the 9 irrigation works entered in the list A 4,24,950
Deduct the cost of the repair of 2 irrigation works (shown in column 11 of the Collector's statement) ... 95,000

Rs. 3,29,950 as noted on the margin. The necessary corrections have been carried out in the statement printed with these Proceedings.

(b) The entries in column 11 of the statement C differ in every case from those in the last column of statement B. Apparently the figures in the latter do not represent, as they ought to do, the sums provided in the programme. The Collector is requested to report what the figures represent.

(c) The total amount for which estimates are ready in the Narsaraopet and Nandigama taluks are entered in column 26 of the statement C as Rs. 1,18,180 and Rs. 3,38,310, while, according to the detailed list A, they appear to be, respectively, Rs. 91,740 and 4,38,810. The discrepancies should be explained. The district totals in columns 14, 16, 22 and 26 of statement C entered as Rs. 8,77,806, 11,02,100, 18,000 and 8,94,822 should be Rs. 9,17,806, 14,36,900, 3,93,520 and 8,93,822, respectively.

(d) The number of new road works provided in the Nandigama taluk is two and not four. The Collector is requested to see that the statements are carefully checked in his office before they are submitted to the Board in future.

BOARD OF REVENUE (REV. SETT., L. RDS. AND AGRI.), 9TH AUGUST 1894, No. 331.

PROCEEDINGS OF THE BOARD OF REVENUE
 (REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—again the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 15th June 1894, Mis. No. 3613:—

Read—programme of famine relief works for the year 1894-95 from the Collector of the Kistna District, dated 13th May 1894, No. 1735-Ver.

Resolution—dated 15th June 1894, Mis. No. 3613.

Statement C received from the Collector has not been correctly prepared and should be revised with reference to the instructions issued in Board's Proceedings, No. 502, dated 16th July 1892. The additional works shown at the end of statement A should not be included in calculating the numbers for whom employment can be given on available relief works, and should be excluded altogether from this statement.

In this statement also, it is not shown separately what numbers could be employed on land improvements to be executed by the aid of loans.

2. In statement B it is remarked that the number of tanks under the Revenue Department has not been reported by the Divisional officers, and that only those tanks for the repairs of which provision has been made, have been shown in the statement. This is erroneous. The number of irrigation works in and out of repair under the charge of the Revenue Department can be ascertained from the jamabandi statements of irrigation sources, and provision should be made for the repair of all sources out of order the repair of which is necessary or desirable. The programme should be revised accordingly and be resubmitted at a very early date.

 Secretary.

To the Collector of the Kistna District.

READ—also letter from the Collector of the Kistna District, dated 27th June 1894, Ref. on C. No. 2722-Ver.

ABSTRACT.—Submitting a revised statement in form C of famine relief works for 1894-95.

READ—also statement B in connection with the famine relief works for 1894-95, dated 16th July 1894, No. 2520-Ver., from the Collector of the Kistna District.

RESOLUTION—dated 9th August 1894, No. 331.

The revised abstract of the programme of famine relief works for 1894-95 received from the Collector of Kistna will be submitted to Government.

2. The details of the works provided in the programme are noted below:—

Works.	Estimated cost in lakhs.
(1) Construction of 15 new irrigation works	8.50
(2) Repairs of 16 irrigation works	3.09
(3) Construction of 299 miles of road	9.18
(4) Repairs of 26 existing roads	14.37
(5) Miscellaneous works—	
(a) Construction and repair of drinking-water wells	0.08
(b) Water-supply scheme of Bezvada	2.00
(c) Construction of a drainage channel in Bezvada	1.00
(d) Levelling banks of canals in Bezvada	0.75
(e) Land improvement works	0.10
	39.07

3. (a) Out of the 11.59 lakhs provided for the construction and repair of irrigation works (items 1 and 2 above) nearly 7 lakhs relate to Professional agency works shown in the subjoined statement for which no detailed estimates are said to be ready:—

Taluks.	Works.	Estimated cost.
		RS.
Vinukonda	Dondapad tank scheme	67,574
	Ipur tank scheme	31,100
	Reconstruction of Nayakerla tank, Mellavagu	60,000
	Restoring the ruined tank called Burratoma of Gandiganamala	9,200
	Reconstruction of tanks at Kondayapalem, &c.	50,000
Palnad	Closing the breach and strengthening the bund of Silam Brahmanayudu tank	94,000
	Constructing a dam across the Pulleru at Konanki	5,000
	Do. dams to irrigate fields	20,000
	Jonnnapadu tank scheme	25,000
	Mellavagu do.	2,00,000
Narasaraopet	Constructing an anicut across Dandivagu and Nanamma tank	3,850
	Reconstructing the tank at Nadendla to irrigate lands in 8 villages	10,000
	Do. do. Sembhunicheruvu at Elchur	10,000
	Do. do. to the west of Dronadula village	8,000
	Improving the irrigation tank at Santamagalur	8,000
Nuzvid	Constructing anicut across the Vogeru to irrigate lands of 30 villages	40,000
	Tanks affecting railways (repairs of)	50,000
	Total	6,92,324

The Chief Engineer for Irrigation will be requested to be so good as to inform the Board whether all these works may be treated as available for famine relief purposes.

(b) Similarly in regard to items 5 (b) and (c), the Collector should report in what state the projects are; unless they are in a forward state of preparation, they should not be included in the programme, but only shown as additional works—*vide* paragraph 5 (9) of Board's Proceedings, No. 411, dated 7th June 1892.

4. The total provision made amounts to 39.07 lakhs, and is estimated to be sufficient to provide employment for three months for 46 per cent. of the total population of the district. The provision is adequate in all taluks, except in the Government taluk of Sattenapalle and in the zemindari division of Vissannapeta. The Collector remarks that people in these tracts can migrate to parts where relief is extensive. It is, however, observed that in Sattenapalle, increased provision can be made under repair of irrigation works, as out of 12 major irrigation works and 4 minor works out of order in the taluk, the repair of only one minor irrigation work has been included in the Collector's programme. This should be borne in mind when the next programme is submitted.

5. Excluding the land improvement works for which no estimates are required, estimates are reported to be ready for works costing nearly 9 lakhs or 22.9 per cent. of the total provision. In Sattenapalle, however, out of a total provision of Rs. 1,87,550, estimate is shown to be ready for only one minor irrigation work costing Rs. 350.

6. (a) The entry of Rs. 1,99,950 in column 9 of statement C against the Palnad taluk is obviously an error. It should be Rs. 3,29,950 as noted on the margin. The necessary corrections have been carried out in the statement printed with these Proceedings.

The total approximate cost of the 9 irrigation works entered in the list A 4,24,950

Deduct the cost of the repair of 2 irrigation works (shown in column 11 of the Collector's statement) 95,000

Net remaining cost of the 7 new works 3,29,950

(b) The entries in column 11 of the statement C differ in every case from those in the last column of statement B. Apparently the figures in the latter do not represent, as they ought to do, the sums provided in the programme. The Collector is requested to report what the figures represent.

(c) The total amount for which estimates are ready in the Narsaraopet and Nandigama taluks are entered in column 26 of the statement C as Rs. 1,18,180 and Rs. 3,38,310, while, according to the detailed list A, they appear to be, respectively, Rs. 91,740 and 4,38,810. The discrepancies should be explained. The district totals in columns 14, 16, 22 and 26 of statement C entered as Rs. 8,77,806, 11,02,100, 18,000 and 8,94,822 should be Rs. 9,17,806, 14,36,900, 3,93,520 and 8,93,822, respectively.

(d) The number of new road works provided in the Nandigama taluk is two and not four. The Collector is requested to see that the statements are carefully checked in his office before they are submitted to the Board in future.

Palnad	Closing the breach and strengthening the bund of Silam Brahmanayudu tank	94,000
	Constructing a dam across the Pulleru at Konanki	5,000
	Do. dams to irrigate fields	20,000
	Jonnappadu tank scheme	25,000
	Mellavagu do.	2,00,000
Narasaraopet	Constructing an anicut across Dandivagu and Nanamma tank	3,850
	Reconstructing the tank at Nadendla to irrigate lands in 8 villages	10,000
	Do. do. Sembhuncheru at Elchur	10,000
	Do. do. to the west of Dronadula village	8,000
	Improving the irrigation tank at Santanagalur	8,000
Nuzvid	Constructing anicut across the Vogeru to irrigate lands of 30 villages	40,000
	Tanks affecting railways (repairs of)	80,000
	Total	6,92,324

The Chief Engineer for Irrigation will be requested to be so good as to inform the Board whether all these works may be treated as available for famine relief purposes.

(b) Similarly in regard to items 5 (b) and (c), the Collector should report in what state the projects are; unless they are in a forward state of preparation, they should not be included in the programme, but only shown as additional works—vide paragraph 5 (9) of Board's Proceedings, No. 411, dated 7th June 1892.

4. The total provision made amounts to 39.07 lakhs, and is estimated to be sufficient to provide employment for three months for 46 per cent. of the total population of the district. The provision is adequate in all taluks, except in the Government taluk of Sattenapalle and in the zemindari division of Vissannapeta. The Collector remarks that people in these tracts can migrate to parts where relief is extensive. It is, however, observed that in Sattenapalle, increased provision can be made under repair of irrigation works, as out of 12 major irrigation works and 4 minor works out of order in the taluk, the repair of only one minor irrigation work has been included in the Collector's programme. This should be borne in mind when the next programme is submitted.

5. Excluding the land improvement works for which no estimates are required, estimates are reported to be ready for works costing nearly 9 lakhs or 22.9 per cent. of the total provision. In Sattenapalle, however, out of a total provision of Rs. 1,87,550, estimate is shown to be ready for only one minor irrigation work costing Rs. 350.

6. (a) The entry of Rs. 1,99,950 in column 9 of statement C against the Palnad taluk is obviously an error. It should be Rs. 3,29,950 as noted on the margin. The necessary corrections have been carried out in the statement printed with these Proceedings.

(b) The entries in column 11 of the statement C differ in every case from those in the last column of statement B. Apparently the figures in the latter do not represent, as they ought to do, the sums provided in the programme. The Collector is requested to report what the figures represent.

(c) The total amount for which estimates are ready in the Narsaraopet and Nandigama taluks are entered in column 26 of the statement C as Rs. 1,18,180 and Rs. 3,38,310, while, according to the detailed list A, they appear to be, respectively, Rs. 91,740 and 4,38,810. The discrepancies should be explained. The district totals in columns 14, 16, 22 and 26 of statement C entered as Rs. 8,77,806, 11,02,100, 18,000 and 8,94,822 should be Rs. 9,17,806, 14,36,900, 3,93,520 and 8,93,822, respectively.

(d) The number of new road works provided in the Nandigama taluk is two and not four. The Collector is requested to see that the statements are carefully checked in his office before they are submitted to the Board in future.
