roof of the verandahs of the building in question was very likely to come down, the latter officer was ordered to include the building in the Returns of this department, and also to put it in order, so that it might be used by the Tank Restoration Scheme Party when it worked in that part of the district, no other building being procurable at Srivilliputhur or elsewhere in the Northern part of the District.

3. The building was accordingly repaired at a cost of Rupees 2144 in 1890-91. It is not now required by the Tank Restoration Scheme Party as the investigations in that part of the division have been completed, nor is it required by this department for any purpose.

4. The Executive Engineer suggests that the bungalow be handed over to the Revenue department for use of travellers in which capacity it can be used by District officers. The Taluq Board in its Resolution of the 25th April 1894, which has been received through the President District Board, states that the bungalow may be of great use to travellers and that it

it is therefore willing to take over the charge of the building.

5. Under these circumstances, I have the honor to recommend that the transfer of the building to the Taluq Board be sanctioned. The building is borne in the Register of Civil Buildings as item No. 11 under Provincial, Sattur Taluq with a value of Rs 6100 - that is, bungalow Rs 5000, Cook room and latrine Rs 900 and Stable Rs 200.
