Read—the following letter from E. C. RAWSON, Esq., Collector of Kistna, to the
Secretary to the Commissioners of Land Revenue, dated 29th June 1894,
No. 1069 :—

I have the honour to report that at Sattenapalle there is an abandoned Police
station now under the charge of the Public Works Department, and on referring to
the Executive Engineer, Northern division, Kistna, he states that there is no objection
to its being handed over to the Forest Department.

2. As the building would do very well for a Range office, I have the honour
to request that sanction may be obtained for its transfer. It is similar to four others
that have been handed over to the Forest Department, viz. :—

Gavaravaram	...	...	Nandigama taluk.
Vellatoor	...	...	Bezwada taluk.
Ravulapuram	...	...	Vinukonda taluk.

5. I do not lose sight of the fact that strong arguments are brought forward for the proposals. But the financial condition of the country must be paramount; and, whatever the advantage of the reforms, they must be postponed if they can only be effected at the cost of adding sooner or later to the taxation of the country.

6. I am, therefore, obliged to inform your Excellency that, except in case of urgent necessity, I shall not feel myself justified in sanctioning any proposals for an increase of establishment, however desirable upon other grounds, until we arrive at a less unsatisfactory situation of the finances than that which exists at present.

RESOLUTION,—By the Government of India, Finance and Commerce Department, No. 4311-Ex., dated 31st August 1894.

READ—

Despatch from Her Majesty's Secretary of State for India, No. 144 Financial, dated the 26th July 1894.

At the close of the review of the Estimates of your Government for the current year, contained in my Despatch, dated the 21st ultimo, No. 116, I referred to the fact that the deficiency of revenue therein shown was likely to be materially enhanced by the fall in exchange which had occurred since they were prepared, and to the consequent expectation that it would be impossible soon to relax the strict limits imposed on expenditure at present, especially in regard to Public Works.

2. At such a time it is essential to exercise the closest supervision over all proposals for an increase of establishments of any kind, since there is no income from which the charge can be met; and, even if the additional cost be defrayed from the accumulated balances in the current year, the difficulty of providing an equilibrium in the next Budget is enhanced.

3. While this observation refers primarily to the charges which directly affect the Imperial surplus or deficit, it must not be overlooked that it has also an important bearing on those which fall on the Provincial revenues; for, although the re-adjustment may be deferred till 1897, the growth of Provincial expenditure may seriously affect the power of your Government to obtain an adequate share of the normal improvement in the revenues.

4. I have recently received from your Government several Despatches proposing an increase of various establishments, for some of which, at any rate, so far as I am aware, no provision was made in the Budget, and for which there are, therefore, no funds at your Excellency's disposal.
