6TH SEPTEMBER 1894, NOS. 693–698, FINANCIAL.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following papers :—

From E. TURNER, Esq., I.C.S., Acting Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 11th July 1894, No. 1045.

I have the honour to submit the annual report on the working of the Stationery office for the official year 1893–94. The usual statements from A to H are appended.

2. The results of the transactions of the year compared with the previous year stand thus :—

	1892-93.	1893-94.
	RS.	RS.
Value of stores at the beginning of the year	3,29,399	3,57,760
Do. received	4,78,042	4,89,117
Total ..	8,07,441	8,46,877
Value of stores issued during the year	4,49,681	4,63,174
Value of stores at the end of the year	3,57,760	3,83,703

3. The receipts are detailed below :—

		1892-93.	1893-94.
		RS.	RS.
1.	Value of Europe articles received from the Secretary of State for India	1,84,737	1,79,698

Rs. 12,767, being the value of 400 reams writing paper hand-made royal included in the indent, but subsequently cancelled, as this quantity was supplied by the Superintendent of Stationery, Calcutta, out of his surplus stock and Rs. 6,240, being the value of stores due on the indent at the close of the official year, while it includes Rs. 11,093,* being the value of stores due on the indent of 1892–93, but received in 1893–94.

Total ..	11,093	7	3

5. *Item* (2)—*School books, &c., received from England,* on account of Army and Regimental schools in the Presidency, amounted in value to Rs. 8,683 in 1893–94. Rs. 18,408 shown as the receipts for the previous year include Rs. 10,089, being the value of books indented for 1891–92, but received in 1892–93 as already explained in the last annual report. The increase in 1893–94 is, therefore, only Rs. 364, which is chiefly due to the fall of exchange. The books were as usual obtained from Messrs. F. P. Baker and Co., London, through the Military Department, and the costs were met out of the Military budget.

6. *Items* (3) *and* (4)—*Europe articles obtained locally.*—Articles as detailed below were obtained from the Stationery offices, Calcutta and Bombay:—

Articles obtained from the Stationery Office, Calcutta.

Of these, 400 reams writing paper royal hand-made were obtained in lieu of a similar quantity expunged in the indent on the Secretary of State for India (*vide* paragraph 4 *supra*). Longcloth was obtained for supply to the Superintendent, Government Press, on account of revised forms of licenses under the Indian Arms Act and coloured papers for printing forest permit forms. 124,000 goose quills were

received from the Superintendents of Stationery, Calcutta and Bombay, in return for a similar number supplied to them as loan in the previous year. The remaining articles from the Stationery office, Calcutta, and by local purchase (Rs. 539) were obtained to meet emergent demands from officers, when the stock was run short and not replenished by fresh supplies from England.

7. *Items* (5) *and* (6)—*Country articles purchased locally.*—The purchase under this head amounted to Rs. 2,53,363 against Rs. 2,53,632 in 1892–93. Of this, Rs. 10,994 represent value of articles obtained from Government factories as detailed in the margin.* The value of paper purchased from local mills during the year amounted to Rs. 2,21,991. The details of the purchases of the locally manufactured articles are given below:—

	1892–93. Rs.	1893–94. Rs.

8. *Item* (7)—*Articles returned by officers.*—Of Rs. 8,932 shown under this head, Rs. 196 represents the value of articles returned by officers to be exchanged for similar or other articles. Rs. 6,250 is the value of surplus articles returned by officers and Rs. 2,486 is the value of drawing and mathematical instruments returned by the officers of the Public Works Department.

9. *Item* (8)—*Receipts by adjustments.*—Of Rs. 20,516 shown under this head, Rs. 1,250 is the value of service books received from the Government Press for which paper, calico, &c., were supplied from this office as usual. Adjustments made on account of errors, &c., during the year are valued at Rs. 865. Articles valued at Rs. 353 were found as excess in the last annual stock-taking and credited to accounts under G.O., dated 15th November 1893, No. 1136, Financial. The remainder, viz., Rs. 18,048, is the total value added to receipts to make up the difference arising in valuing the receipts, issues and balances of articles at different rates.

10. *Substitution of Country for Europe articles.*—The value of articles of Indian manufacture substituted during the year for those formerly obtained through the India office amounted to Rs. 2,18,994 against Rs. 2,18,351 in 1892–93 with a net saving of Rs. 49,206 against Rs. 36,400 in the previous year, as detailed in the statement F appended to this report. In 1892–93 there was a loss of Rs. 947 under printing paper, while in this year there is a saving of Rs. 6,525, although the paper was

purchased in both years at the same rate of As. 2–10 per lb.; but the difference is chiefly due to the fall of the official rate of exchange from 1*s.* $4\frac{3}{4}$*d.* in 1892–93 to 1*s.* $2\frac{3}{4}$*d.* in 1893–94, at which the estimated English cost of paper was rendered into Indian currency for the purpose of comparison. The English cost of the several descriptions of printing paper determined in this year were based upon the rates furnished by the Director-General of Stores for India in November last.

11. *Issues.*—In the year under review 502 annual and 299 supplemental indents, or in all 801 indents were complied with, against 842 in the previous year. The subjoined statement gives the details of the several indents received during the year:—

12. The value of issues during the year amounted to Rs. 4,63,174 against Rs. 4,49,681 in the previous year as shown in the margin. A detailed statement showing the value of stationery, &c., issued to several departments during the year compared with those of the two previous year has been submitted to Government through the Accountant-General as required in G.O., dated 4th August 1890, No. 526, Financial. The subjoined table shows the issues to several departments compared with those of the previous year:—

13. It will be observed that there is an increase of Rs. 35,126 under Provincial and a decrease of Rs. 21,633 under Other issues, showing a net increase of Rs. 13,493 over the issues of the previous year. But this comparison is defective, inasmuch as the issues made to officers in 1892–93 include their requirements for 1893–94 and those made in 1893–94 include the requirements of 1894–95. Form E appended to this report is prepared in accordance with the instructions contained in Government orders noted in the margin, distributing the issues to the respective years to which they relate, and is properly adapted for comparison. The issues shown in this statement under the year 1894–95 are not complete, inasmuch as they exclude the supplies which have to be made during the course of the current year on account of balances due on the annual indents, which have been partially complied with and supplemental indents which may be received during the year. The issues made to officers for 1892–93 and 1893–94 are therefore taken for comparison in this report. The following is the comparative table showing the issues to heads of the several departments:—

14. It will be seen that in the supplies made for 1893–94 there is an increase of Rs. 6,134 under Imperial and of Rs. 26,640 under Provincial heads, while under other heads the decrease amounted to Rs. 20,773, the net result being an increase of Rs. 12,001.

15. The increase under the *Imperial* head is chiefly due to the increased demands from the Postmaster-General, the Resident in Mysore, and the Meteorological Reporter to Government, as will be seen from the figures in the margin. The Postmaster-General increased his demands on account of the increase of his establishment and for printing 500 copies of Postal Village Directory of Madras Circle and forms generally. A change in the files of correspondence in his department has also entailed a large demand of pasteboards. The new work of publishing a daily weather chart of Madras as required in G.O., dated 26th May 1893, No. 457, from the Meteorological Reporter to the Revenue, involved supplemental demands extent of Rs. 1,416.

16. The increase under the *Provincial* head is chiefly due to increased supply to the departments mentioned in the margin. Of the increase under *Land Revenue* Rs. 15,688 occurs in Collectorates, Rs. 7,442 in the Madras Revenue Survey office, and the remainder, viz., Rs. 527, in other departments. The extra demands in the Collectorates are noticeable in the districts of Coimbatore, Ganjám, Gódávari, Kistna, Malabar, Nellore, Salem, Tanjore and Tinnevelly. They were made on the ground that the average supply was insufficient owing to the increase of work generally and for printing the forms prescribed in the Village Manual. The increase in the Survey Department was on account of the extra supply made for the use of Survey schools held during the recess—June to September 1893—in the districts of Tinnevelly, Madura, Salem, South Arcot, Chingleput and Madras (*vide* G.Os., dated 6th June and 17th August 1893, Nos. 536 and 793, Financial, respectively), and partly on account of the increase of work in the Photo branch of that department. The *Inspector-General of Registration* demanded, in 1893–94, 250 reams of writing royal hand-made and 200 reams of foolscap hand-made more than the supply in the previous year, which was found insufficient to meet his requirements. Under these two items alone the increase amounts to Rs. 9,951. It may be mentioned here that the District and the Sub Registrars, who were obtaining their stationery on an allowance hitherto, were in this year required to be supplied from this office under G.O., dated 10th May 1893, No. 959, Judicial. But the supply was made for the year 1894–95 and will appear in the accounts of that year. The increase under "*General Administration*" is owing to the supply valued at Rs. 1,710 on supplemental indents from the Accountant-General necessitated by the introduction of a change in connection with bills relating to Land Revenue, Registration and Forest establishments in the districts and the amalgamation of the Forest Branch with his office under Board's Proceedings, dated 3rd November 1893, No. 747. The demands of the *Police Department* for 1893–94 exceeded the previous year by Rs. 1,824. The Director of Public Instruction obtained extra quantity of paper valued at Rs. 758 to recoup the printing paper used for his department by the Superintendent, Government Press, during the previous three years. The Principal of the College of Engineering increased his annual indent for 1893–94 over that of the previous year and the

Commissioner for the Uncovenanted Civil Service Examinations obtained an unusually large supply on his indent for 1893–94 for the purpose of Technical examinations held in that year for the first time. These circumstances account for the increase under the *Educational branch*, &c. There is an increase of nearly Rs. 12,000 against *Stationery and Printing*. The printing of Memorandum of Progress of the Madras Presidency during the last forty years under G.O., dated 26th June 1893, Mis. No. 2351, Revenue, the publication of Rules, in pamphlets, regulating the personal conduct of Public Servants under G.O., dated 10th January 1893, No. 11, Revenue, the increase of numbers and pages of Gazette supplements, the increase of work in the several departments of the Press, the increased number of copies of Indian Law Reports, &c., the printing of revised license forms VI, VII and VIII under the Indian Arms Act required in G.O., dated 14th July 1893, No. 1434, Judicial, and similar other circumstances necessitated the extra demands made by the Superintendent, Government Press. Thus the total charges against the Provincial items in 1893–94 exceeded those of the previous year by Rs. 26,640, notwithstanding the strict observance of the rules relating to the expenditure of the stationery articles. For the reasons already stated and under the authorities quoted above, extra supplies for special purposes had to be made. Hence the excess in the expenditure. The subjoined statement gives the details of the offices under the Provincial head where the demands of 1893–94 have noticeably exceeded :—

17. *Sales.*—The value of issues on payment of costs in this year has been less than in the previous year by Rs. 3,440, and it is owing chiefly to the fall in demands from the State Railway offices and from Special Fund establishments. The details are given below :—

19. *Supplemental Indents.*—In the year under report 299 supplemental indents were received against 289 in the previous year. The total value of these indents amounted to Rs. 31,848 against Rupees 29,127 in 1892–93 as shown in the margin. Form G appended to the report gives the particulars of the several supplemental indents. They were invariably accepted upon satisfactory explanations as to the necessity for extra demands from officers, but it must be added that a proper exercise of check and scrutiny on the part of indenting officers can further minimise the number of supplemental indents. The details of such indents under the major heads of departments are shown below:—

20. The value of stock at the close of the year was Rs. 3,83,703 against Rupees 3,57,760 in the previous year and includes Rs. 17,273 being the value of obsolete school books, &c., reported to Government in this office letter, dated 29th June 1894, to be disposed of by public auction.

21. *Rubber Stamps.*—The supply of rubber stamps and ink to the several departments during the year amounted to Rs. 4,946 against Rs. 8,238 in 1892–93 as shown in the margin. The details are given in Form H. annexed to the report and the subjoined comparative table shows the expenditure incurred on account of each department. In 1892–93 a large supply of stamps had to be made to Collectors to be used on copies of official documents, &c., granted to parties. This accounts for the small expenditure in 1893–94:—

22. The cash receipts of the year amounted to Rs. 39,117 and the charges to Rs. 2,72,513 against Rs. 34,814 and Rs. 2,82,452 respectively of the previous year. The increase under *Receipts* is due to a credit under sales of stationery of Rs. 10,850, being the value of stationery supplied by the Stationery Office, Calcutta, to the State Railways in this Presidency and to the increase in the sales of service books and waste paper which in 1893–94 were sold at a higher price than in 1892–93, while the fall in the commission (item 2) is due to the fall of sales of stationery explained in paragraph 17. The *Charges* under Imperial show a decrease of Rs. 14,545. The figure against this head in 1892–93 includes a sum of Rs. 10,751 paid in that year for articles received at the close of 1891–92, while that in 1893–94 excludes a sum of Rs. 8,623, being the value of articles received in that year but paid for in 1894–95. The fall of exchange in 1893–94 and the payment of freights in this year on a portion of stores imported in the preceding year account for the abnormal increase under *Freight charges* (item 4). An increase of Rs. 3,357 under carriage of stationery charges (railway, freight, boat charges, &c., on stores sent to out-stations) is to be accounted for by the corresponding increase in the supplies made during the year as explained in paragraph 16. The increase under establishment charges is owing to the entertainment of a temporary clerk in connection with printed forms and the employment of three watchmen to guard the stationery stores in the old High Court buildings (*vide* G.O's., dated 22nd February 1893, No. 189, Financial; dated 24th February 1893, No. 204, Financial). The subjoined statement furnishes the details of the cash receipts and charges for the year compared with those of the previous year :—

The quantities of printing, country and cartridge papers and ink-powders consumed in 1892–93 exceeded those of the previous year. Printing paper was largely consumed in 1892–93 in the 9 districts noted in the margin.* In Nellore and Kurnool the consumption was much more than in others. In the six districts of North Arcot, Coimbatore, Madura, Nellore, Salem and Tanjore there was an increase in the expenditure of country and cartridge papers. In almost all districts there was an increased expenditure of black-ink powders, its supply having been extended to village officers also.

34. Under Miscellaneous departments, there was an increased consumption of all articles. Registration and Survey departments spent more of writing paper, and the Inspector-General of Jails, the Director of Public Instruction and the Superintendent, Government Press, more of printing paper. The Superintendents of Government Press and of Madras Revenue Survey expended in 1892–93, 282 reams and 496 reams of country and cartridge papers against 67 reams and 230 reams, respectively, in the previous year. The increase in all other articles occurred in the Madras Revenue Survey Department—

35. *Quills and Steel Pens.*—Since the submission of the last report several officers in the Presidency have been requested to furnish detail statements showing their requirements of steel nibs and quills and their views as to the discontinuance of the use of quills by the free use of steel nibs instead. One hundred and ninety-five officers have been addressed on the subject and reports received from 135. A full report on the subject will be submitted to Government shortly. I may add that the total number of quills and of steel nibs issued in 1893–94 exceeded that of the previous year by 110,744 and 721 gross, respectively, as shown in the margin,* although every attempt was made to minimise the supply of quills by offering steel nibs to indenting officers.

36. *Printed forms.*—In the year under report indents for printed forms were called for from the six districts mentioned in the margin.* Of these, the Collectors of Salem, Coimbatore and Cuddapah reported that they had already made arrangements for getting their forms printed as usual for 1893–94. The indents from the remaining three districts as also those from the six districts † taken up in 1892–93 were received in this year. The total number of several forms included in the indents of the nine districts was 2,669. These were duly checked and scrutinized and passed on to the Government Press to be printed and supplied. Of these 959 (604 Magisterial and 355 Revenue) were rendered uniform, and the remaining 1,710, being materially different from one another, were printed in the required form. The savings effected in this respect are estimated at Rs. 3,664 as detailed in the subjoined table:—

From the Superintendent of Stationery, dated 23rd August 1894, No. 1378.

ORDER—dated 6th September 1894, No. 693, Financial.

The report on the administration of the Stationery department for the official year 1893–94 was received four days after the due date. It has, however, been necessary to refer to the Superintendent for the elucidation of certain figures and his reply* reached Government on the 28th ultimo.

* Dated 23rd August 1894, No. 1378.

2. The value of stores received during the year amounted to Rs. 4,89,117 against Rs. 4,78,042 in 1892–93. There were increases under *Europe articles received from other Presidencies*, *Country stores received from other departments*, *Articles returned by officers* and *Receipts by adjustments*; whilst there were decreases under *Stores received from the Secretary of State*, *School books obtained from England*, *Europe articles purchased locally* and *Country stores purchased locally*. The variations have been explained in paragraphs 4 to 9 of the report. It is to be noted, however, that the rise under the first of the above heads was principally due to the supply of 400 reams of royal hand-made writing paper by the Superintendent of Stationery, Calcutta, out of his surplus stock, in lieu of a similar quantity expunged from the indent on the Secretary of State, and to the return of 124,000 quills which were furnished on loan to the Stationery Offices at Calcutta and Bombay in the previous year. The increase under the third of the above heads arose from the larger amount of surplus stores returned by officers, the value of these being Rs. 6,250 against Rs. 786 in the previous year. That under *Receipts by adjustments* is accounted for by the amount (Rs. 18,048 against Rs. 11,909) shown as the difference arising from fluctuations of prices in closing the ledger for the year.

3. The value of issues during 1893–94 exceeded that for 1892–93 by Rs. 13,493. Taking, however, the issues made to officers for consumption during these years, which as explained in paragraph 13 of the Superintendent's report affords a more reliable method of comparison, the net increase was Rs. 12,001. This amount was made up of Rs. 6,134 under Imperial and Rs. 26,640 under Provincial heads—the variations in which have been satisfactorily accounted for in paragraphs 15 and 16 of Mr. Turner's report—against a decrease of Rs. 20,773 under sales and other issues, that under sales being attributed to the fall in demands from State Railways and Special Fund establishments.

4. The net saving effected by the substitution of articles of country manufacture for stores formerly obtained from England was Rs. 49,206, against Rs. 36,400 in 1892–93 and Rs. 3,458 in 1891–92. The recent decision† to substitute country-made writing papers for the greater portion of the papers hitherto obtained from England should result in a still further saving, though the effect of this order will not be apparent until the report of 1895–96 is under review.

5. Supplemental indents increased in number from 289 to 299 and in value from Rs. 29,127 to Rs. 31,848. It is observed from Form G appended to the report that 82 such indents were contributed by the 16 offices noted in the margin.‡ As remarked by the Superintendent, the exercise of proper check and scrutiny on the part of indenting offices would lead to a diminution in the number of these indents and the Government trusts that the point will be carefully borne in mind by all heads of departments.

6. Excluding sales, the number of rubber stamps issued was 747 and the value of stamps, inks, pads, &c., was Rs. 4,825, against 919 and Rs. 8,200, respectively, in the previous year. The Superintendent accounts for the decline by the fact that in 1892–93 the demands from Collectors were exceptionally heavy. Form H appended to the report shows that large issues were made to several Collectorates in 1893–94, and it is presumed that the figures against the districts mentioned in the margin represent mainly the balance of the special issues.

7. The increased consumption of stationery articles in public offices during 1892–93, which is dealt with in paragraphs 27 to 34 of the report, cannot be attributed entirely to increased correspondence, and though the rise in some articles—*e.g.*, black ink powder—has been satisfactorily accounted for, the only conclusion that can be drawn from the statistics is that much greater check on the consumption of stationery stores than is at present exercised is required from heads of departments. The Government hoped that the issue of the Stationery rules in September 1892 would have effected much in this direction and it trusts that the figures for 1893–94, when the rules were in operation throughout the year, will be more satisfactory. The matter is one which His Excellency in Council desires to impress on the individual attention of each head of an office.

8. The increase in the issue of quills in 1893–94, alluded to in paragraph 35, was regrettable. The Superintendent will expedite his report on the subject. Meanwhile His Excellency in Council considers it advisable to warn all officers that the supply will, in future, be restricted within the narrowest limits.

9. Printed forms were furnished to nine Collectorates during the year and the savings resulting from this system of supply from a central depôt are estimated at Rs. 3,664 against Rs. 1,338 in 1892–93 when six Collectorates were supplied.

10. The Superintendent and his subordinates are entitled to credit for the efficient working of the department.
