From

D. A. McCready Esq.,
Superintendent of Prisons
for the Town of Madras.

To The Inspector General of Prisons
Ootacamund.

Sir, I have the honour to report that yesterday it was discovered that the roof of the Carpenters' shed, where turning, sawing and rattaning was going on, was in a dangerous state; the roof was apparently gradually giving away. I at once wrote to the Consulting Architect to Government about it; on examination by the Assistant Engineer, and his officials, they have come to the conclusion that the roof may tumble in at any moment, and that it should be attended to at once. I have vacated the portion of the Workshop in this state. I beg you will kindly address the Consulting Architect authorising him to go on with the work of repair and renewal at once. We are having heavy rains and the work should not be delayed.
