ORDER—dated 22nd September 1894, No. 2306, Judicial.

The Executive Engineer, Kistna Western division, proposes to distribute the nineteen buildings forming the abandoned district jail at Guntur as shown below:—

Buildings Nos. 1 and 3 to the Guntur Sub-divisional officer.
" " 2, 4, 16, 17 and 19 to the Executive Engineer, Kistna Western division (and the Eastern Sub-divisional officer).
" " 5, 6, 7, and 14 to the Survey department (also No. 8 according to the plan).
" " 10 and 11 to the Sub-Registrar.
" " 18 to the Assistant Inspector of Schools.

The remaining buildings, bearing Nos. 9, 12, 13 and 15 in the plan, are to be left unutilized as they are reported to be unsuitable for use as a Post office.

2. This scheme of distribution is said to have been drawn up in consultation with the departments interested and it has, to a great extent, been carried into effect. It is accordingly approved.

Letter from Acty Malet Esq, Executive
Engineer, District Western Division to the
Superintending Engineer, II. Briele dated
22^d May 1894, No. 112 S

With reference to your No. ^{2583 NS} 1. 2. 94
and No. ^{2987 NS} 13. 3. 94, I have the honor to
forward a survey of the Gunter jail
with detailed estimates and sketches of
the alterations proposed to make the
buildings suitable for the accommodation
of the different departments. I was
unable to submit these papers before,
as I have no subordinate stationed
at Gunter and the Gunter Sub Divisional
Officer and his subordinates did as
much as they could do to push forward
the other works in their charge at the
end of the official year.

2. From the survey, you will observe
that the jail buildings with the exception
of Nos (16) & (17) are enclosed by a high
masonry wall.

Eastern
Sub-Division

Masonry walls separate I or entrance yard from the yards II and III to the Southwest and Northwest of it and all the other lines of division consist of high wooden railings.

3. The large yard on the North east side has no buildings in it which can be turned to any use except the latrine and the large well. Buildings nos (1) (2) (3) (4) (10) (11) & (16) are pucca buildings with brick in mortar walls with the exception of (1) & (16), are fitted with iron grated doors and windows with latten or venetian leaves in addition. Building (16) is the only one with an upper story.

4. The buildings have been or are proposed to be allocated as follows.

(1) and (3) to the Gunter Sub Division

(2), (4), (16), (17) & (19) to the Kistna Western Div.

(5) (6) (7) & (14) to the Survey Department

(10) and (11) to the Sub Registrar's Department

(18) to the Educational Department.

No use can at present be found for (9) (12) (13) and (15)

5. With the exception of a connecting passage between (10) & (11), a verandah in front of (11) and a small bathroom for the Executive Engineer, Kistna Western Division, no new work is provided for under the estimates now submitted. All the rest of the work provided for comes under ordinary repairs.

6. Nearly all of the work allowed for in connection with the Executive Engineer and Eastern & Gunter Sub Divⁿ offices and for blocks (5) & (7) of Survey office has been completed and the buildings occupied.

7. Work in connection with the Registrar's and Educational office has not been started and these Departments still occupy rented buildings in Gunter.

8. From the enclosed rough sketch you will see that blocks 10 & 11 intended for the Sub Registrar's office are to be connected by a covered
