spit whereas it is now barely 500 ft; for it is in width that the sand spit has during the past year considerably increased.

6. Of the two rough stone groynes which hitherto have fairly served to protect the northern margin the upper one has been breached some 100 ft in width near its shore end, while the lower one is turned, a gap of some 200 feet exists between it and the shore. Though silting up is in a measure taking place in the vicinity of the groynes and below them, it will be necessary to repair and strengthen them and to connect the lower one with the shore. This is all I consider necessary to attempt to carry out before the monsoon of 1895 in regard to protecting the northern margin.

7. What is of the utmost importance to undertake as early as practicable - namely when the river comes down in flood of 1895 - is to endeavour to decrease the sandspit both as regards its length and breadth, chiefly at its apex or northern end. It may also be possible if the floods are unusually high, to cut a channel through the centre of the sand spit and thus get rid of a large portion of it. But it is by the

PENSION DEPARTMENT.

Read—the following papers :—

From the Superintending Engineer, V Circle, dated 9th July 1894, No. 213 C.

Certificate and report from the Examiner of Public Works Accounts, dated 23rd August 1894, No. 86.

Order—dated 21st September 1894, No. 1174, Pension.

Under Articles 485 and 524 (*b*) of the Civil Service Regulations (2nd Edition), the Right Honorable the Governor in Council is pleased to grant to Veera Pillay, late lascar, Vettar Head Conservancy establishment, Tanjore division, Public Works Department, an invalid pension of Rs. (3–8–0) three and annas eight per mensem payable at Tanjore from 24th June 1894, in consideration of his qualifying inferior service of 29 years, 11 months and 14 days.

2. It is reported that the exact date of the applicant's entertainment in 1864 is not known, and the Examiner, Public Works Accounts, has taken the 1st January of that year as the date for the purposes of calculation. The applicant's service is accordingly certified as amounting to 30 years, 5 months and 14 days, and an invalid pension of Rs. 3–8–0 per mensem, equal to half his pay, is thus admissible under the rules. The Government has recently decided in G.O. No. 849, Pension, dated 5th July 1894, that in cases where the year of an applicant's birth is known but not the exact date in that year the 30th June shall be taken as the date of birth, and His Excellency the Governor in Council now resolves to extend the application of this ruling to cases like that now under consideration. It is accordingly ruled that whenever the year of an applicant's entertainment in Government service is known, but not the exact date in that year, the 30th June shall in future be considered to be the date from which service commenced.

3. The result of applying this ruling to the present case is that the applicant's service falls short of the minimum period of 30 years by 16 days, and the Government has resolved to condone this small deficiency under Article 465 A, Civil Service Regulations.
