Read—again G.O., dated 24th September 1894, Nos. 1178–79.

Order—dated 10th October 1894, No. 1240, Pension.

The orders read above all relate to pension applications from the Kistna district, in the disposal of which great delay has been allowed to occur.

2. In the case of Chatta Kotappa, dealt with in G.O., dated 24th September 1894, No. 1178, the applicant, whose service dated back to the year 1849, was in the first instance permitted to retire in February 1891. After nearly a year's delay, for which no explanation is furnished, the pension application reached the Accountant-General's office in January 1892, and it was then pointed out that the application was out of order, because the applicant was less than 60 years of age and had not furnished a medical certificate of incapacity for further service. This rule should have been well-known to the District officers, who had dealt with the case, and in consequence of their disregard of its provisions, the applicant, who had to be reinstated, lost both pay and pension for more than a year. After his reinstatement no steps were apparently taken to verify his services and to prepare for his retirement, although attention had been specially drawn to his case by the Proceedings noted above, and when he finally left the service in December 1893, it took nearly 9 months for his pension papers to reach the Government office.

3. His Excellency the Governor in Council is unable to allow this case to pass without fuller information as to the causes of this most reprehensible delay, and the Collector of Kistna is directed to report the names of every officer responsible. The final stage of delay between December 1893 and September 1894 is partly explained in the Sub-Collector's letter to the Treasury Deputy Collector of August 28, but the delay in 1891–92, which practically fined the applicant of 15½ months' pay, remains unexplained. When the Collector's report is received, the Government will proceed to consider whether the officers responsible should not make good to the applicant the arrears of salary which he lost by their default.

4. The case dealt with in G.O., No. 1179 of the same date, also brings to light the occurrence of gross delay in the settlement of claims to pension. The applicant, Tadepalle Lakshmayya, was compelled to retire under the Collector's Order of June 15, 1893. His service under Government had commenced in 1856 and amounted in all to over 37 years, of which some 31 years were qualifying. The applicant's service actually closed on August 31, 1893, but his pension papers were not received in the Government office until September 14, 1894, so that the applicant has been kept waiting for his pension for more than a year. The delay is partly explained in the Sub-Collector's letter to the Treasury Deputy Collector, dated 9th July 1894.

5. The delay in the above cases has been separately noticed, because the disposal of pension applications in the Kistna district is conducted more tardily than in any other district, and the Government accordingly desires to draw the Collector's attention to the matter and to the orders already issued on the subject. It was reported by Mr. Atkinson in his letter read in G.O., dated 9th January 1894, No. 2, Pension, that the verification of service registers had been almost entirely neglected in the Kistna district, and the frequent delays now brought to notice afford ample evidence of this fact. The Government trusts that prompt action has been taken to rectify the errors of the past, but it is clear that much remains to be done in this direction, and Mr. Atkinson should devote his personal attention to the matter. Under G.O., dated 11th August 1894, No. 991, all Heads of Departments have been called upon to submit a return of the progress of verification at the close of the quarter ending with September 30.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—again the following papers:—

G.O., dated 22nd February 1894, No. 153, Financial.

ABSTRACT.—Approving of the proposal to include among articles of supply to the Public Works Department all materials necessary for the ferro-prussiate and the ferro-gallic processes of copying plans, directing that department to arrange for a report on the advantage of the new process after a trial of a year or two, and drawing the attention of the Superintendent of Stationery to certain alteration proposed in the size of glass.

G.O., dated 16th July 1894, No. 544, Financial.

ABSTRACT.—Directing that certain kinds of country-made paper be substituted for similar English paper and a report on them be furnished at the end of the year.

G.O., dated 20th September 1894, No. 756, Financial.

ABSTRACT.—Approving the Board's proposal that the locks manufactured by Messrs. A. Sankaralingam Achari & Brothers, of Dindigul, may be given a further and more extended trial.

READ—also the following papers:—

From E. TURNER, Esq., C.S., Acting Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 4th August 1894, No. 1208.

I have the honour to submit the estimate (in triplicate) for Europe articles of stationery, &c., required in 1895–96 for use in 1896–97.

2. The estimate is, as usual, based upon the average issues of two years, calculated upon the actuals of the past three years, allowance being made for the stock on hand and that expected from England and the probable demands of the current year. The total value of the articles thus estimated amounts to £9,737–8–3¾ against £9,176–1–5, the estimate of the previous year. The small increase is due to the provision of Chubb's padlocks and materials for the heliographic printing process, with reference to G.Os., dated 10th October 1893 and 22nd February 1894, Nos. 1001 and 153.

3. No suitable substitutes of Indian manufacture have been found for the articles now estimated for.

4. The accompanying statement marked A will show the details of the estimate clearly.

From E. TURNER, Esq., C.S., Acting Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 17th August 1894, No. 1321.

In reply to your memorandum, No. 1603, dated 11th August 1894, I have the honour to state that no reduction has been made in my estimate for Europe articles with reference to the substitution of country-made papers sanctioned in G.O., dated

16th July 1894, No. 544, as the substitute proposed is only a trial measure for one year which will be in 1895–96. The articles estimated for are required for use in 1896–97.

2. If, however, the Government thinks that a reduction should be made in the present estimate the amount shown against writing paper, namely, £1,986–14–11¼ may be reduced by £767–1–1 and the following items expunged from the detailed statement marked A which accompanied the estimate :—

Description.	Quantity.	Rate.	Value.
	REAMS.	£. s. d.	£. s. d.
Royal M.M., 44 lb.	50	2 2 0	105 0 0
Medium M.M., 34 lb.	100	1 6 6	132 10 0
Foolscap C.W., 14 ,, ...	2,666	0 3 11¼	524 17 4
Octavo Post M.M.C.V.	25	0 3 9	4 13 9
Total ..	2,841		767 1 1

From E. TURNER, Esq., C.S., Acting Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 27th September 1894, No. 1563.

With reference to your memorandum, No. 1750, dated 31st August 1894, I have the honour to forward herewith two boxes containing samples of locks manufactured by Messrs. A. Sankaralingham Achari & Brothers, together with a comparative statement of the prices of these and of the Chubb's locks.

2. It will be observed that the locks of local manufacture appear almost as good as those of Chubb's, and the prices of the former are much lower than those of the latter.

3. Under these circumstances, I think Sankaralingam's locks may be advantageously utilized in place of Chubb's locks.

4. If the Government be pleased to approve of this, I request that the item of Chubb's locks in my estimate for Europe stationery for 1895–96, amounting to £182, may be expunged, and the same added on to my budget for local purchases for that year now before the Government.

ORDER—dated 10th October 1894, No. 842, Financial.

The issue of country-made paper, in place of paper of English manufacture, will be continued during 1896–97, and the reductions specified in the Superintendent's letter of the 17th August 1894, No. 1321, will be carried out in the present estimate.

2. The Government considers that the locks manufactured by A. Sankaralingam Achari & Brothers, Dindigul, should, wherever practicable, be utilised in place of Chubb's locks. The Dindigul locks will be obtained by heads of departments by indent on the Superintendent of Stationery, who will make all arrangements necessary for their supply.

3. The estimate will be returned to the Superintendent for revision, with reference to the above remarks.

4. The Accountant-General will make the change in the Stationery budget referred to in paragraph 4 of Mr. Turner's letter of the 27th September 1894, No. 1563.
