3. It seems, however, to Government that the construction of six new wards, as proposed by Mr. Atkinson, is unnecessary. It will suffice if the four southern wards (marked A, B, C and D on the plan furnished by the District Magistrate) are constructed and a wall built from E to F. This wall should be so made that it will eventually come in for use as a wall for two additional male wards, should it be found necessary hereafter to construct them. Orders for the preparation of the necessary plans and estimates will issue in the Public Works Department.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ—the following papers :—

From the District Magistrate, Kistna, dated 31st January 1894, No. 1460.

ABSTRACT.—Stating that he is unable to support the proposal of the Superintendent of Police that, in view of the whole block of the old jail buildings at Masulipatam being made over to the police for use as lines for the reserve, under-trial prisoners, for whom there is no room in the new subsidiary jail attached to the taluk office, be kept in the lock-ups of the Robertsonpettah and Inuguduru police stations; disapproving also the suggestion of his predecessor that a ward be retained in the old jail building for such surplus prisoners; and recommending instead that a wing be added to the new subsidiary jail sufficient for two cells at least and to accommodate six prisoners each.

Endorsement of the Inspector-General of Jails, dated — February 1894, No. 700.

From the Inspector-General of Police, dated 24th April 1894, No. 2287.

ABSTRACT.—Requesting the transfer to the Police Department of the buildings used as a subsidiary jail at Masulipatam, and that orders may issue to the Public Works Department to carry out the necessary alterations to the buildings to suit the requirements of his department.

From the District Magistrate, Kistna, dated 2nd May 1894, No. 367.

ABSTRACT.—Forwarding, with remarks, a map of Masulipatam town, and a plan of the old jail buildings.

From the District Magistrate, Kistna, dated 18th September 1894, No. 768.

ABSTRACT.—Forwarding, with remarks, a sketch of the ground plan of the new taluk cutcherry and the wing proposed to be added to the sub-jail.

ORDER—dated 17th October 1894, No. 2509, Judicial.

The transfer of the old sub-jail buildings at Masulipatam to the Police Department seems unobjectionable and is therefore sanctioned. The conversion of these buildings into quarters for (a) a European Town Inspector, (b) two European or Eurasian Head Constables, (c) two Native Head Constables, and, (d) twenty-six Constables necessitates the building of a number of walls and it will probably suffice if these are of brick in mud. If so, the Inspector-General of Police will presumably be able to have the work done departmentally. The demolition of the old jail office seems inexpedient, as some use will probably be found for it hereafter.

2. The accommodation provided in the new sub-jail attached to the new taluk cutcherry is evidently inadequate; but the proposals to keep the surplus prisoners in the lock-ups of Robertsonpettah and Inuguduru police stations or in a ward of the old sub-jail are open to obvious objections. The extension of the new sub-jail is therefore sanctioned.

Current sub

Law

The plan & estimate for converting the sub jail buildings at Masulipatam into quarters for the Police Inspector, Head Constables & Constables have not been sent in to the S.D.'s Office. They may be returned to the S.D. & Co. for sending to the Inspector-General of Police.

The following points may be noticed

(a) That the nature of the surface & sub soils should be reported.

(b) That the proposed bath room for the European & Eurasian Head Constables may be placed in rear with a new doorway leading outside & that the cook's room be brought in front as shown on plan.

(c) That windows may be provided as marked in pencil on plan, to the front verandah rooms of the Inspector's quarters in order to admit more light.

Forwarded to the Superintending Engineer, Civil, for submission of a revised estimate, attention being paid to the following points—

(a) The nature of the surface and sub soils should be reported.

(b) The proposed bath room for the European and Eurasian Head Constables might be placed in rear with a new doorway leading outside, the cook room being brought in front as shown on plan.

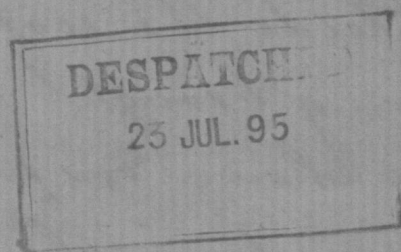

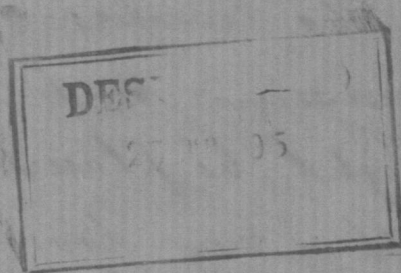

(c) Windows should be provided, as marked in pencil on plan, to the front verandah rooms of the Inspector's quarters in order to admit more light.

light and air.

The two centre rooms allotted for constables, marked A and B in pencil, should be provided with windows, as shown in pencil, otherwise the rooms would be dark and ill ventilated.

3. Data lists should be furnished for the rates entered, as many of them cannot be checked with the divisional schedule, which is meagre.

Judicial Department.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following paper:—

From the Inspector General of Police, dated
7th June 1895, N^o 3395.

With reference to para 1 of G. O. dated
14 October 1894, N^o 2509, J. D. I have the honor
to submit plan and estimates amounting
to Rs 5900 for the conversion of the sub jail
buildings at Masulipatam, Kistna District
into quarters for

1. Inspector

1. European Head Constable

1. Eurasian Head Constable

2 22. Native Head Constables

and 26 Constables.

2. Colonel Porteous considered that
brick and mortar should be used instead
of brick in mud owing to the ravages of
white ants. The estimates have been prepared
accordingly. I agree with Colonel Porteous in
thinking that in the long run, it will be more
economical to build the walls of brick in
mortar.

mortar. I doubt ^{whether} ~~whether~~ anything else would
be satisfactory in Masulipatam.

3. In forwarding the above estimates, the
Superintendent of Police remarked that they
would require revision by the Public Works
Department before according final sanction
for the carrying out of the work, the Executive
Engineer observes that the sanction of
Government should be obtained for the
revision of the estimates by the Public
Works Department, as the amount exceeds
Rs 1000.

4. The proposal being to build the walls
of brick in mortar I am of opinion that
professional skill is necessary for the execution
of the works in question and therefore request
that Government may be pleased to direct that
the plan and estimate be revised and the work
undertaken by the Public Works Department

Order, dated 3rd July 1895, N^o 1396.

Approved and transferred to the
Public Works Department.
