GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following papers :—

G.O., dated 9th August 1894, Mis. No. 3120, Revenue.

Read—the following Proceedings of the Board of Revenue (Land Revenue), dated 24th July 1894, Mis. No. 4044 :—

Read—the following letter from J. THOMSON, Esq., Collector of Chingleput, to the Secretary to the Commissioners of Land Revenue, dated 14th July 1894, Ref. on No. 752-Eng. :—

Adverting to G.O., Revenue, Mis. No. 4540, dated 6th December 1893, communicated with Board's Proceedings, Mis. No. 6863, dated 12th idem, I have the honour to submit, for the sanction of Government and the issue of the necessary orders for execution, an estimate amounting to Rs. 2,820, together with plans, for the construction of a separate building for the Stationary Sub-Magistrate's office at Chingleput. The plans and the estimate have my approval.

Resolution—dated 24th July 1894, Mis. No. 4044.

Submitted for the sanction of Government with reference to G.O., dated 17th November 1893, No. 2984 W., communicated with G.O., dated 6th December 1893, No. 4540, Revenue.

(True Copy and Extract.)

(Signed) L. M. WYNCH,
Secretary.

Order—dated 9th August 1894, Mis. No. 3120, Revenue.

The plans and estimates are approved and will be transferred to the Public Works Department.

(True Extract.)

(Signed) R. C. C. CARR,
Under Secretary to Govt.

From J. P. DAVIDSON, Esq., Officiating Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepâk, 5th October 1894, No. 331 W.

I have the honour to return the plans and estimates which accompanied your memo. No. 2795 C., dated 31st August 1894.

2. In reply to a reference made to him the Executive Engineer reports —

(1) that the so-called "made soil" dates from the time of construction of the Fort and is probably some 200 years old.

(2) the Sub-Registrar's office built in 1882 is founded in this made soil, the foundations being from 4 to 5 feet deep, it is perfectly sound throughout and shows no signs of settlement.

(3) at a depth of from 4 to 5 feet below ground level large boulders resting in sand are met with.

3. I am of opinion that as regards depth the foundations proposed for the Stationary Sub-Magistrate's Court may be accepted, the cost might be somewhat reduced if concrete is used throughout instead of 3 feet concrete and 2 feet masonry as allowed in the plan and estimate.

Note by the Chief Engineer, Public Works Department.

The undersigned considers that the foundations of the building should be laid with concrete throughout to ground level instead of 3 feet of concrete and 2 feet of brick-in-chunam as provided for in the estimate. In this way moreover a saving of about Rs. 160 should be effected.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Chief Engineer, P.W.D.

17th October 1894.

Order—dated 6th November 1894, No. 2815 W., Public Works.

The estimate of Rs. 2,780 for constructing a Stationary Sub-Magistrate's office at Chingleput in the Chingleput district is sanctioned for execution when funds are available.

2. Attention is drawn to the Chief Engineer's note recorded above.

3. This sanction has been registered as Provincial No. 62 W. of 1894–95 and classified as Civil Buildings, Original Works.

Draft Sanction submitted, but please see last part of J1 note, comparing the accommodation provided in the plan with that proposed in
No 1937W of 4.8.9

If considered advisable, the Rev. Dept. might be asked whether the present plan & estimate might be held over until the issue of the proposed type design, when a fresh estimate can be prepared -

On the other hand the Collector is satisfied with the accommodat to be provided in the present case, & the plan & estimate have been approved in the Rev. Dept.

Submitted.

W.

I doubt whether this should be passed. It seems scarcely prudent to construct such a building on made earth without knowing how long the earth has been made. The foundations are made 5 ft. deep because the foundations of an adjoining Sub-Registrar's Office built in 1882 were made that depth. But it is not stated that the Sub Registrar's Office, which moreover may have been a work of lighter construction, was built on made earth. Although adjoining, it may have escaped made soil and had been constructed on natural soil. Is not a further reference necessary?
