PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Inspector General of Police, Madras,
dated 12th October 1894. No. 5905.

I have the honor to bring to the notice
of Government the inadequate accommodation
for my office establishment and the necessity for
more store rooms. I enclose a rough sketch of the
Chief Office building and Godowns.

marked D on the
plan.

2. That portion of the building marked A on
the plan to which it has been found unavoidable
to move some of the Clerks owing to the over-
crowded state of the main room, is merely a
Verandah and the heat between 11 A.M. and 2
P.M. - More especially during the hot weather
is so trying that it is scarcely possible for the men
to work there.

marked B on the plan

3. To obviate the inconvenience pointed out
in para 2 of this letter, I beg to recommend an
extension of 10 feet on the eastern side of the
building in the form of a terraced Verandah.
this would in effect convert the present
Verandah A into a good sized comfortable
room.

room and afford much needed accommodation.

4. The inadequacy of our storage capacity has been still further strained owing to forms hitherto printed at District Presses having been added to the stock supplied from this office.

Large accommodation is required for storing all the forms and registers for the whole Presidency and under the rules regulating the supply and consumption of stationery, I am required by the Superintendent of Stationery to keep in stock two years' supply. Apart from the question of providing room for stationery no inconsiderable difficulty has been experienced in regards to clothing, and so pressed are we for accommodation that I have been at times compelled to request Superintendents of Jails to defer the despatch of drill beyond due date owing to the very limited space available, the store rooms too are inconveniently crowded and the work of sorting packing &c is retarded for want of sufficient working area.

5. An addition to the store accommodation is absolutely necessary and I beg to recommend the extension shown in the plan. This proposed extension to the present godown, roofed with country tiles would provide no more room than is actually required.

6. I have modified the proposal included as item 1 in Statement B referred to in S.O. No. 2487. The Verandah on the Southern side has been omitted.

2487, dated 28th November 1893 J.D. The present proposals are not likely to cost more than Rs. 3000. I trust they may be approved of and the D.P.W. instructed to prepare the necessary plans and estimates.

Order 29th October 1894 N^o 2580.

The Inspector General's proposals are approved and the necessary orders for the preparation of plans and estimates will issue in the Public Works Department. The Government remarks however that, unless there is some way of lighting room D from the top, the building of the new room B will probably render it so dark as not to be usable by the clerks.
