No 625 of 14th October 1894

From J. D. Legge Esquire
Offg. Executive Engineer South Area Division

To The Supl. Engineer, V. Circle,

Sir, With reference to your No 435 S.A. of the 25th ultimo, I have the honor to enclose herein a statement of the approximate number of miles to be levelled on the various ancient systems of this Division for the fixing of correct Bench Marks.

2. The levelling in every case will start from the nearest Railway Bench Mark and close on a Railway Bench Mark.

3. The total distance is 160 miles, most of which will have to be done twice or thrice over, some parts even four or five times over, to insure perfect accuracy. Before the Surveyor begins operations, Sub Division Officers should fix proper Cutsone Bench Marks at the Anicuts and along main channels, out of the Maintenance grants; and these Bench Marks should be carefully pointed out to the Surveyor before he enters on the necessary levelling for each system.

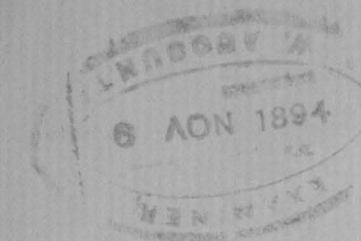

I have &c

- Sd - J. D. Legge
Offg. Executive Engineer.

No 385 E. D.

Submitted to the Chief Engineer for Irrigation with reference to his Memorandum No 625a. of 18th September 1894.
