From the Consulting Architect to the Government of Madras, dated 16th October 1893, No. 2154.

With reference to G.O., No. 2510 W., dated the 2nd October 1893, I have the honour to report that the removal of the wall between the record and property rooms may necessitate the removal and renewing of the roofing and it may possibly shake the side walls and require a portion of them to be rebuilt; the cost will therefore be great. The building of a transverse wall instead of the present longitudinal wall will deprive the proposed new record room of a good deal of light. I considered that the longitudinal wall should be retained in the Ellore cutcherry. The light and ventilation of the record and property room should be improved and used for the clerks and records and a new room be built at the back for storage of property. If there is no objection the floor of this room may be one foot over the ground and the terrace on a level with that of the verandah. I enclose a plan and section illustrating my views and will furnish an estimate for the same if approved.

2. In revising the standard plan the suggestions of the High Court will be attended to and a satisfactory plan prepared.

Endorsement of the Public Works Department, dated 25th October 1893, No. 3449 C.

Order—dated 14th November 1893, No. 2334, Judicial.

The Consulting Architect's letter will be referred to the Honorable the Judges of the High Court for favour of remarks.
