With reference to para 8 of the above,
I have the honor to report for the information
of the Board that the Executive Engineer, Salem
Division inspected the upper story of my
office building and expressed his opinion
that the extension of the building occupied
by the District Forest Officer could be
effected with safety.

Read—the following letter from H. BRADLEY, Esq., Acting Collector of Malabar, to the Secretary to the Commissioners of Land Revenue, dated 18th July 1894, No. 1049 P-Gl. :—

With reference to the Board's Proceedings, dated 17th January 1894, Mis. No. 233, I have the honour to forward herewith for sanction revised plans and estimates for constructing Deputy Tahsildars' cutcherries at Anjengo and Tangasséri and to request that Government may be moved to issue orders for the execution of the works when funds are available.

2. A copy of the Superintending Engineer's letter and a list of plans, &c., submitted herewith are enclosed.

Resolution—dated 27th July 1894, Mis. No. 4131.

The revised plans and estimates for constructing Deputy Tahsildars' cutcherries at Anjengo and Tangasséri received with the letter read above are submitted for the sanction of Government and for provision of funds in the Public Works Department with reference to G.O., dated 9th January 1894, No. 19.

Note by the Chief Engineer, Public Works Department.

The undersigned considers that the bressummers should be of teakwood and that
the scantlings for the front bressummer and verandah rafters are slightly weak and
that the sections allowed in the estimate should be altered as below:—

				Estimated.	Proposed.
Front bressummer	...	...	...	7" x 10"	7½" x 11"
Verandah rafters	...	...	...	3" x 6"	3" x 7"

2. The necessity for providing wall plates under tie beams as shown on cross
section A.B. is not apparent and the same have been omitted from the estimate; stone
bed plates have been substituted instead.

3. The frame work of the wooden partition does not appear to be suitable, as
the venteak planking nailed to the horizontal frames placed about 9 feet apart is
likely to warp; struts and a centre vertical upright, as shown on sketch attached to
the estimate, have now been estimated for.

4. It should be reported whether the existing foundations will bear the extra
weight of the upper floor proposed.

5. It is observed that the plan and estimate have not been countersigned by the Collector; this should be done before the work is put in hand.

6. The alterations noticed above have increased the amount of the estimate from Rs. 9,100 to Rs. 9,620.

2. It is not for the Fresh Branch
alone that extra accommodation is
urgently required, but also for the
Collector's Office. At present extra
accommodation is urgently needed
for the Assistant Collector and for the
records of the Collector's Office as well
as for the Fresh Branch. For years
past this has been urged again and again.
By the additions now proposed, the
Fresh Clerk's will be very conveniently
accommodated in the present Collector's
room. The Collector's Sheristadar can be
accommodated in the present Treasury Dept
Collector's room and his room added to
the record room, while a proper room
upstairs is provided for the Assistant Collector
or for the use of any other Divisional Officer
visiting Salem for the purpose of trying a case
or a District Board meeting etc. At present
there is absolutely no accommodation available
for use in such a contingency. The present
proposed arrangement will cost but very
little more than it would to provide for the
Secret office alone and it will be a really
good job. The extra accommodation
is very urgently required. Regarding this matter
I consulted the Executive Engineer of the Salem
Division, and personally pointed out to him
the extra accommodation needed. In accor-
dance with my suggestions he prepared the
plan and estimate which have been approved of
by the Superintending Engineer IV Circle, copies of
whose letters noted in the margin are enclosed for
perusal of the Board.

Name of work. Improvements to the Collectors office at Salem.

Amount of Estimate Rs 9100

The plan & estimate under review have been framed with reference to G.O. No. 3055 W dated 27th March 1893 & provide for constructing an upper floor to the Collectors office at Salem.

The proposed work of the existing building is stated to be supported by 3 rows of arches & 2 rows of pillars carrying beams. It is therefore proposed to carry the longitudinal walls of the proposed floor over two of the consecutive rows of arches & form two rooms, one 71'6" x 22'6" & another 24'0" x 22'6".

The large room will be partitioned into 3 rooms of equal size by 2 fixed wooden partitions raised to the roof. The rooms thus partitioned will measure 23'6" x 22'6" each. In front of the main rooms there will be verandahs supported on square
