Read—the following papers :—

Letter from the Collector of Coimbatore, dated 9th September 1892, Reference on Mis. No. 1426.

Reference on the above.

As sketched in the survey plan the building will have its frontage exposed to the morning sun. The Collector is requested to report whether it cannot be more conveniently placed to face north, as sketched in pencil on the plan, so that the frontage will almost always be in shade.

Letter from the Collector of Coimbatore, dated 14th October 1892, No. 2094.

Resolution—dated 5th November 1892, Mis. No. 7177.

The plan and estimate for constructing a taluk cutcherry at Bhaváni at a cost of Rs. 29,250, received with the first letter read above, will be submitted to Government with reference to G.O., dated 26th August 1891, No. 828.

2. The convenience of the officials and of the public frequenting the taluk cutcherry will be better consulted by placing the building with its front to the north, in which position it will be less exposed to the sun. The out-houses will of course be shifted to the south of the main building.

Order—dated 10th December 1892, Mis. No. 5389, Revenue.

The plan and estimate are approved and transferred to the Public Works Department, in which the Board's suggestion in para. 2 will be considered.

Secretary to Government.
