Petitioner is informed that the Government has carefully inquired into the circumstances of his dismissal, and that it sees no reason to modify its order No 1017 W d/31 March 1893.

S

28.11

CHMS
28/11 94

Cn

DESPATCHED
6 DEC. 94

(6) That the petitioner most humbly begs to point out that no attention of any kind was paid to this report and that the petitioner's superior officers of the department persisted still to hold the dismissal order as peremptory;

(7) That the petitioner believing fully that the British Government is so just, generous, impartial and reasonable, that it is always bent upon doing good especially to its Indian subjects and watching carefully and checking the unreasonable and one sided action and arbitrary orders of some of the several Executive and Administrative officers under its control, he did not mind learning other profession, for his livelihood, as he was sure that he could pull on well in the world by the public appointment in question and that in old age he could live upon the pension that may be duly granted to him for his hard-earned and honest service.

(8) That this belief and guiltless character of the petitioner have been always urging him to refer his miserable case often to the Government till he gets justice and that though he had been consulting with the Vakils etc, to find out any point of law or Government order in favour of the petitioner's case, he was not till last week favoured with any, having been once disappointed by the order quoted above from your Excellency's Government.

(9) That the petitioner solicits most earnestly to state that he has at last met with an order passed by the Government of India in circular No. XII Public Works, dated Simla 18th October 1884 upon most deliberate lawful and mature consideration and to that order the petitioner most submissively begs now to invite your Excellency's attention and states that the instructions therein given were not in the least attended to before the poor petitioner was dismissed;

(10) That the petitioner most humbly begs also to invite attention to the following from the Indian Government and that they were [illegible] not taken into consideration before his dismissal;

(*a*) Public Works circular No. 65 dated 29th August 1879.

(*b*) Letter No. 1746 dated Fort William 23rd December 1892 from the India Government P. W. D.

(11) That the petitioner begs also to point out that the order (copy enclosed) passed by the Superintending Engineer on his petition is evidently condemnable and contrary to the order passsed by the India Government in para 3 of the above circular as the Superintending Engineer sought a high standard of efficiency in the establishment by doing injustice to the petitioner.

(12) That the petitioner therefore most humbly craves your Excellency's generosity to reconsider his miserable case and render justice to him so that he and his family members may be free from the hardships and difficulties they are suffering from eversince the petitioner was dismissed from the public appointment of about 17 years' service.

For which act of kindness the Petitioner as in duty bound shall ever pray.

J. Cooppoosawmy Naidoo

Late Superintendent, Alliabad Annicut,
now residing in
Ranipet, North Arcot District.

Ranipet
Dated 9 Nov/94

CHIEF SECRETARY
16 NOV. 1894
GOVERNMENT OF MADRAS

TO

HIS EXCELLENCY THE RIGHT HONORABLE
THE GOVERNOR IN COUNCIL,
Fort St. George,
MADRAS.

The humble petition of J. Cooppooswamy Naidu, late Superintendent of Alliabad Annicut D. P. W. attached to the North Arcot Division, who was unjustly dismissed from his service after having served Government for about 17 years in the permanent appointment without any flaw to his moral character.

MOST HUMBLY SHEWETH,

(1) That for the last five years and five months *i. e.*, since the petitioner was dismissed from the public service, he has been subjected to such hardships and difficulties for the livelihood of himself and his family members, that even a heard-hearted and ungenerous man would actually pity very much if he learns the way in which the petitioner is leading his life, since the petitioner has no other means of livelihood nor has he learnt any other profession to enable him to earn his bread, having been solely dependent on the Government employment which he was deprived of unreasonably.

(2) That the petitioner had already submitted on the 5th July 1889 to your Excellency a humble petition (copy (A) enclosed) settingforth sufficiently therein the reasons for his unreasonable and unjust dismissal from his public appointment and that he received in reply very simple and short unfavourable order No. 4380 C. dated 1st October 1889, as little consideration was shown to the reckless procedure adopted by the petitioner's superiors in the course of his dismissal.

(3) That in fact the petitioner has committed no blunder whatever and was furnished with no charges of any kind against which he was dismissed, nor was he ever asked to submit his explanation in defence of such charges.

(4) That when the petitioner first sent in his petition to the Superintending Engineer for reconsidering the petitioner's miserable and unreasonable case and rendering him justice, the Superintending Engineer passed an order unreasonably arbitrary and one sided to the effect that the petitioner was not fit to hold any appointment in the IVth circle inspite of the petitioner's long service of 17 years and inspite of the orders of the meritorious and able Engineers of the past time who appointed the petitioner in the Public Works Department, a copy (B) of the Superintending Engineer's order No. $\frac{84}{N.\ A}$ dated Coimbatore 6th February 1891 is herewith submitted for your Excellency's kind perusal.

(5) That the overseer who had sent a hasty report first to the Sub-Divisional officer against the petitioner without enquiring into the real fact of the petitioner's absence which is the cause of petitioner's dismissal, asked the petitioner subsequently for an explanation for his absence and that after being convinced of the innocence of the petitioner, he made a second report to the Sub-Divisional officer in favour of the petitioner; a copy (C) of the Overseer's report is also herein enclosed for perusal;

he wanted me Stationery. The water Registers at the anicut were filled up only upto 3rd morning: I warned him to send his lascar if he wanted Stationery and to fill in the Registers punctually they to remain &c

TO

HIS EXCELLENCY THE RIGHT HONORABLE
THE GOVERNOR IN COUNCIL,

Fort St. George,

MADRAS.

The humble petition of J. Coopoosawmy Naidu *late Superintendent of Alliabad Anicut, attached to the Vellore Division of North Arcot District, who was unjustly dismissed from his service after having served Government for about 17 years without any flaw to his moral character.*

Most Humbly Sheweth,

That the Petitioner most humbly brings to Your Excellency's kind notice and benign consideration the following facts, and begs to pardon him for intruding on Your Excellency's valuable time.

2. The Petitioner with reference to the correspondence noted in the margin, craves to represent that the Superintending Engineer does not seem to have gone fully into the two applications of the Petitioner and considered the merits in the case, but simply replied as follows :—

"Petitioner is informed that the undersigned is unable to comply with the
"terms of his petitions."

A. Official Memo from the Executive Engineer, dated 1st May 1889, No. 122 S. D.
B. Petitioner's application to the Superintending Engr. V. Circle dated 29th May 1889.
C. Petitioner's application to the Superintending Engr. V. Circle dated 5th June 1889.
D. Reply from Superintending Engineer V. Circle to the Petitioner, dated 10th June 1889, No. 1616, Bangalore.

3. The petitioner implores to state that the Superintending Engineer had disposed of the matter so leniently in favor of the Executive Engineer without any investigation into the case.

4. That the Executive Engineer's Official Memo dated 1st May 1889 No. 122 S. D. to the Petitioner for his dismissal runs thus: "Under orders from
"Superintending Engineer V. Circle you are hereby dismissed from service with
"effect from date of relief for repeated absence from duty without leave."

5. That the Executive Engineer should fine the Petitioner once or twice for his absence, and if repeated he should be degraded of his post on one or two occasions as a lesson to alter his protested habits, but if the Petitioner continues without any change after having warned on various occasions, then the Petitioner should

No 2028 Encl

Proposition Statement for Temporary Draftsman Rs 40/-/-

Submitting for sanction

Public Works Department,
~~Railway Branch~~.

No. 3119 W. dt. 5 December 1894

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following

From the S. E. III circle (H.E. No. 2028 d/ 22 Novr 1894)

Sanction is accorded to the entertainment, for one year from 1st December 1894, of a draftsman on Rs 40 per mensem in the Cuddapah Division in connection with the Sagileru project.

W/ 30 Nov

2. This sanction has been registered as Provincial No. 50 W of 1894-95, and classified as Establishment, Temporary.

CWM 27/11/94

DES
DEC. 94

The S. E. III Circle
" Exar: P.W. Accts.

plan has to be redrawn, owing to mistakes in the design, levels, &c. and every estimate has to be revised, because of quantities being wrong or rates being insufficient. At the present moment the draftsman has 7 references in connection with the Project on hand, four of them being revised designs, which will necessitate fresh estimates, and as the Project progresses I see no reason why the number should not increase.

3. In addition to these 7 references he has twelve ordinary Division ones to dispose of, and, as I have already stated, it is impossible for him practically sigle handed, to keep his work up to date.

4. Another reason why he wants assistance is that the records of the Draftsman's branch in my Office want putting in order very badly, but in the present state of affairs it is impossible for the Head Draftsman to devote any time to this important duty.

5. Giving me a man on Rs 25 is very little good - what I want is a really experienced reliable man, who can be trusted to do his work without continual help from the Head Draftsman, and it is impossible to get such a man for less than Rs 40 a month.

No. 2028
22-11-94

Copy forwarded to the Chief Engineer D. P. W. for sanction.

Special and Miscellaneous.

Read the following paper :—

No. 137. *Extract from the Proceedings of the Government of India, in the Military Department; dated Simla, the 3rd November 1894, No. 3072-B.*

Read—

The Inventions and Designs Act, 1888 (Act No. V. of 1888), with special reference to sections 16 and 17 thereof.

Resolution.—All officers or subordinates holding staff appointments, or employed in any administrative, instructional, manufacturing, or experimental department under the Military Department of the Government of India are to understand that one of the conditions subject to which they hold such appointment or employment, is that they shall not acquire an exclusive privilege for an invention, or apply for leave to file a specification thereof, without first obtaining the approval of the Governor-General in Council, by application through their respective commanding officers or heads of their departments.

2. Each application for such approval must contain a general description of the invention for which protection is desired.

3. Permission to acquire an exclusive privilege will not be granted as a matter of course, but each application will be dealt with according to the circumstances of the case. Should permission be granted, it will be subject to the following conditions, from which there shall be no appeal by the applicant :—

(*a*) That, if it be at any time desired by the Governor-General in Council, the exclusive privilege shall be absolutely assigned to him, upon such terms as, after full consideration of all the circumstances of the case, His Excellency may decide.

(*b*) That the invention may be used by or for Her Majesty's service, and that terms of payment, if any, for such use, shall be decided by the Governor-General in Council.

(*c*) In settling terms, either for assignment or use, regard will be had by the Governor-General in Council to any facilities in originating, working out, and perfecting the invention, which the inventor may have enjoyed by reason of his official position. All payments require the sanction of the Governor-General in Council.

Order.—Ordered, that a copy of this Resolution be forwarded to the departments of the Government of India, and to all departments under the Military Department of the Government of India.

(Signed) E. H. H. COLLEN,
Secretary to the Govt. of India.

Extract from the report by Mr. Jacob, Superintendent of the practical training course.

Mr. F. Furnivell has been employed for seven months on the Glasgow Central Railway, and for five months on the Lanarkshire and Dumbartonshire Railway. On the former, the work consisted of over three miles of underground railway with several different types of covered way. The Assistant Engineer~~s~~ was ~~were~~ able to see the methods of sinking and timbering shafts, of setting out centre lines, of excavating the underground channel, and of covering it in. He ~~They~~ also saw the construction of sewers, the laying of the permanent way, and the arrangements for the platforms for the various stations. He ~~They~~ saw a good deal of ~~different~~ difficult and interesting brickwork and masonry, and ~~of~~ a fair amount of iron girder work. He ~~They~~ witnessed much underpinning of foundations of buildings and walls, which should be a valuable experience to him ~~them~~. On the Lancashire Derbyshire, and East [illegible] Railways ~~t~~he~~y~~ saw the construction of some large retaining walls, the foundations of which, were laid in water by means of coffer dams, the construction of the bridge over the River Kelvin, and the erection of some girder bridges. He was ~~They were~~ personally employed in setting out profiles, and giving levels for side walls, permanent way, drains, &c. He ~~They~~ visited the following works in addition to those on which he was ~~they were~~ employed:-

Glasgow Waterworks.

Loch Katrine Aqueduct.

West Highland Railway.

Bridgeton and Carmyle Railway.

The waterworks being close to the headquarters of the Assistant Engineer's, were visited on several occasions,

India Office
15th January 1874.

Sir,

With reference to Sir Horace Walpole's letter of the [illegible] August 1873 apprising you a [illegible] Engineer Establishment of the Indian Public Works Department [illegible] Engineers [illegible] I am directed to inform you [illegible] the reorganization n of that Department which has taken place under the orders of the Secretary of State for India in Council a rearrangement of grades has been found necessary.

This arrangement came into force on the 1st August 1873, and as [illegible] appointment takes effect from the 1st October [illegible], your grading in the list

Extract from the report by Mr. Jacob, Superintendent of the practical training course.

Mr. F. Furnivall has been employed for seven months on the Glasgow Central Railway, and for five months on the Lanarkshire and Dumbartonshire Railway. On the former, the work consisted of over three miles of underground railway [illegible]th several different types of covered way. The Assistant ngineer~~s~~ ~~were~~ was able to see the methods of sinking and t[illegible]bering shafts, of setting out centre lines, of excavating the underground channel, and of covering it in. ~~They~~ He also saw the construction of sewers, the laying of the permanent way, and the arrangements for the platforms for the various stations. ~~They~~ He saw a good deal of ~~different~~ difficult and interesting brickwork and masonry, and ~~af~~ a fair amount of iron girder work. ~~They~~ He witnessed much underpinning of foundations of buildings and walls, which should be a valuable experience to ~~them~~ him. On the Lancashire Derbyshire, and East C[illegible]ilways ~~t~~he~~y~~ saw the construction of some large retaining walls, the foundations of which were laid in water by means of coffer dams, the construction of the bridge over the River Kelvin, and the erection of some girder bridges. ~~They~~ He ~~were~~ was personally employed in setting out profiles, and giving levels for side walls, permanent way, drains, &c. ~~They~~ He visited the following works in addition to those on which ~~they~~ he ~~were~~ was employed:-

Glasgow Waterworks.
Loch Katrine Aqueduct.
West Highland Railway.
Bridgeton and Carmyle Railway.

The waterworks being close to the headquarters of the Assistant Engineer's, were visited on several occasions,
